

**Student
Safety Alert** INC.

Please note and save our number:

 **(631) 209-7760**

This is the number you will receive calls from regarding any alerts we receive.

Founding Purpose:

Student Safety Alert was established to support school safety and student well-being. Recognizing that emergencies don't adhere to school hours, we specialize in monitoring and responding to student alerts around the clock—including off hours, weekends, summers, and holidays.

Our mission is to ensure no alert goes unnoticed and every situation is addressed promptly, providing peace of mind for schools, students, and their families. We understand the immense responsibility schools bear in safeguarding their students' well-being.

Our service acts as an extension of school resources, offering specialized monitoring and response capabilities that fill the gaps outside traditional school hours.

Our Team

A small, dedicated team of professionals in IT Security, education, and crisis management supports
