

MOBILE L4600 AUTO MAINTENANCE

PRODUCT

Multifunctional Mobile Vehicle Maintenance Service Vehicle

CONCEPT

A fully equipped, self-sufficient mobile vehicle that can provide a wide range of maintenance services to cars, trucks, and other vehicles on-site.

KEY FEATURES

- Comprehensive Maintenance Capabilities:
- Basic services: Oil changes, tire rotations, brake inspections, fluid checks, battery testing.
- Advanced services: Engine diagnostics, minor repairs, electrical system checks, air conditioning servicing.
- Specialized services: Diesel engine maintenance, fleet vehicle servicing, RV repairs.

ADVANTAGES

SELF-SUFFICIENCY

Onboard equipment: Hydraulic lift, diagnostic tools, air compressor, welding machine, battery charger, and other necessary tools.

Storage: Ample storage space for parts, supplies, and equipment.

Power supply: generator, or batteries.

MOBILITY

Compact design: To navigate narrow spaces and traffic congestion.

Powerful engine: To tow or transport equipment as needed.

VALUE

CUSTOMER CONVENIENCE

Scheduling: Online booking and flexible scheduling options.

Location: Ability to service vehicles at the customer's location (home, office, or other designated area).

Transparency: Real-time updates on service progress and costs.

POTENTIAL BENEFITS

Time-saving: No need for customers to take their vehicles to a garage.

Convenience: Services can be performed at a time and place that suits the customer's schedule.

Cost-effective: Reduced overhead costs for the service provider, potentially leading to lower prices for customers.
