### “An Edge Ahead In Science and Medicine”

This Coming Year, be challenged, be engaged, and be enriched while exploring the world of science and medicine. Join us and participate in The Mini Medical Program of North Lawndale for 4<sup>th</sup>, 5<sup>th</sup>, and 6<sup>th</sup> graders.

Students will learn about the human body, study associated diseases, and become familiar with disease prevention. Students will conduct hands-on experiments. In addition, students will explore college and careers in the medical field to provide them with an edge ahead in their future endeavors.

The program will be held at Mount Sinai Health System in the North Lawndale Community. Young people in a medical and science campus of higher learning at an early age is a formula for success.

In addition, students will excel and meet new friends and encounter a life-changing experience that will impact their life forever.

If you are interested, please fill out the attached registration form. If you have any questions, you may text or email to the information provided below.
