**Why they do it?:** To confuse the times so that people will be in the dark about the mo'wed which are the appointed times (Sabbaths) and laws of the Creator. They are Yahowah Elohim's Holy Days and have always been, but his own people worship him through the false stars of chiun/remphan/Saturn and christ-maesse (literally Christ dismissal) and ishtar...instead of worship through the 7-Fold prophetic message of Passover, Unleavened Bread, Firstfruits, Pentecost, Atonement, Trumpets, and Tabernacles. Have a Great 8<sup>th</sup> Day! 8 = Everlasting  $\infty$ . **Both Testaments explain this plainly—prophetically, and the Testimony of Jesus Christ is the Spirit of Prophecy (Revelation 19.10)!** Additionally, this uncanny floating word astronaut(s) is an etymological dance of perfectly predicted in the scripture by the pure genius of YHWH!

You shall not take [NASA] the name of the LORD your God in vain; for the LORD will not hold him guiltless that takes [NASA] his name in vain (Ex. 20.7 & Deut. 5.11). *Yahowah Times*

# Seems Like the Most Magical Word in the World?

Not only is the word “astronaut(s)” extremely high yield on many words that can be formed out of it, through rearranging the letters, but apparently also the most occult-focused scrambler in the history! Isaiah 14 all over the place (mow’ed mounting) on the sides of the north.

**Saros** a period of about 18 years between repetitions of solar and lunar eclipses; A lunar cycle of 6585.32 days at the end of which the centers of sun and moon return so nearly to their relative positions at the beginning that all the eclipses of the period recur approximately as before though in longitudes about 120 degrees west of the regions where they were visible in the saros immediately preceding. ### Satan – Sanat – Santa – NasaT | This is Psycholinguistic Occult Evidence!

Astronaut was Coined 1929 in science fiction, popularized from 1961 by U.S. space program, from astro- + nautes "sailor" (see also naval). French astronautique (adj.) had been coined 1927 by "J.H. Rosny," pen name of Belgian-born science fiction writer Joseph Henri Honoré Boex (1856-1940) on model of aéronautique, and **Astronaut was first used in 1880 as the name of a fictional spaceship by English writer Percy Greg (1836-1889) in "Across the Zodiac."** [What are the odds fiction became reality so fast?]

Some suggest it is from a root meaning "to strew, scatter." istar "venus."

**Nasas Tutors** [**NASA**] in Hebrew is up, lift, bear, to take up, and in English is an American Space Agency and **[Tutor(s)]** is *Shadow education*; a name for private supplementary tutoring that is offered outside the mainstream education system; independent instruction

**Sanat Torus** **[Sanat]** is just Satan spelled different in Hinduism and Theosophy, and in geometry, a **[Torus]** (plural tori) is a surface of revolution generated by revolving a circle in three-dimensional space about an axis coplanar with the circle. If the axis of revolution does not touch the circle, the surface has a ring shape and is called a torus of revolution.

**Saturn Taos** **[Taos]** is a town in northern New Mexico's high desert, bounded by the Sangre de Cristo Mountains. Sangre is blood in Spanish and Pueblo de Taos is considered one of the oldest continuously inhabited communities in the United States and *designated as a UNESCO World Heritage Site*.

**Star Tauons** **[Tauons]** an elementary particle, a lepton, having a mass almost twice that of a proton and a negative charge

**Tau Tronas** **[Tau]** tou, t $\hat{o}$ /Submit, also the nineteenth letter of the Greek alphabet (T, τ), transliterated as 't.', from Hebrew tau, last letter of the Hebrew alphabet, literally "sign, mark." Like an ankh is a tau cross, in ASTRONOMY, the nineteenth star in a constellation

**Tau Ceti** PHYSICS & FICTION I am just inserting this here because this is one of the things that Tau leads to in the occult. If you have eyes to see, then it is eye opening to what's really going on in Hollywood for example. The Ceti itself does not fit into the Astronuat(s) Word Magick.

**[Tau]** an unstable subatomic particle of the lepton class, with a charge of  $-1$  and a mass roughly 3,500 times that of the electron. Noun: tau particle; plural noun: tau particles **[Ceti]** genitive of *cet $\acute{u}$ s* "whale, large sea animal". There are many connections here that are too difficult to explain, and somewhat inappropriate to Luciferian rituals and practices. In short Space X has been known to launch a light show that looks very much like a whale, and this is all connected to a particular practice that I simply won't

explain here because it is too graphic. **Tau Ceti** is used “Religiously in fiction and Hollywood”. Check it out and ask yourself “Why?” For quick reference look into Barbarella and The Excessive Machine, as this will help you put what I am avoiding explaining above. This all has to do with the mixing and mingling of fornication with planet worship. Just search “Tau Ceti in Fiction” and read the wiki to see the pervasive sexual nature of this terminology in the No Good Hollywood.

**Trona(s)** gray-white or yellowish-white monoclinic mineral consisting of a hydrous acid sodium carbonate

The word "trona" entered English by way of either Swedish (trona) or Spanish (trona), with both possible sources having the same meaning as in English. Both of these derive from the **Arabic trōn**, which in turn derives from the **Arabic natron, and Hebrew נטרן (natruna)**, which comes from ancient Greek νιτρον (nitron), derived ultimately from ancient Egyptian ntry (or nitry = Nitry definition: nitrous ; comprising nitre). You will also notice TRON being another champion of Hollywood. Natrona is also utilized in gematria and has been referenced to somehow be connected to Jesus (in a nonsensical way).

**Trona** (trisodium hydrogendicarbonate dihydrate, also sodium sesquicarbonate dihydrate,  $\text{Na}_2\text{CO}_3 \cdot \text{NaHCO}_3 \cdot 2\text{H}_2\text{O}$ ) is a non-marine evaporite mineral. It is mined as the primary source of sodium carbonate in the United States, where it has replaced the Solvay process used in most of the rest of the world for sodium carbonate production. Think in terms of “processed” salt of the earth.

# ProphecyMachine.com

Tau Tronas (unstable subatomic laughing gas) ha ha just a little fun side interpretation for those that understand the value of word play.

**Saturn** Beyond the planetary reference and chiun/remphan in Scripture, Saturn is related by Man’s Philosophies to Agriculture, God of All Gods after the Titans, Father of All Planets but Uranus, and is also known as Cronus or Kronos, chronos

The word **SANAT (Satan in Hinduism & Theosophy)** is a great example of Psychological Linguistics in that it does not matter if you spell the word as satan or sanat or even santa in that the same meaning and influence is easily applied. **Sanat** Kumara is the advanced being at **9th level of initiation**, lord of earth and humanity and dwells in Shamballah also known as the City of Enoch, and Shamballah is the home of the king of the world in Buddhism... so much more is connected to this and is something to look into, e.g., set or sut also = satan or sutekh.

**Torus:** In geometry, a torus (plural tori) is a surface of revolution generated by revolving a circle in three-dimensional space about an axis coplanar with the circle. If the axis of revolution does not touch the circle, the surface has a ring shape and is called a torus of revolution.

Real-world examples of toroidal objects include inner tubes, swim rings, and the surface of a doughnut, a bagel or an apple. A torus should not be confused with a solid torus, which is formed by rotating a

disc, rather than a circle, around an axis. A solid torus is a torus plus the volume inside the torus. Real-world approximations include doughnuts, vadai or vada, many lifebuoys, and O-rings.

In topology, a ring torus is homeomorphic to the Cartesian product of two circles:  $S^1 \times S^1$ , and the latter is taken to be the definition in that context. It is a compact 2-manifold of genus 1. The ring torus is one way to embed this space into three-dimensional Euclidean space, but another way to do this is the Cartesian product of the embedding of  $S^1$  in the plane. This produces a geometric object called the Clifford torus, a surface in 4-space.

In the field of topology, a torus is any topological space that is topologically equivalent to a torus.

**SAROS TAUNT (astronauts) think danger Will Robinson danger!** When the light goes on you will realize they were mixing fiction with “so-called” reality long before “so-called” reality existed. This is what I call reverse prophecy: they mock God by writing fiction out of a mystical interpretation of the scripture, and then they bring it to pass shortly thereafter claiming it to be reality. Sometimes it’s real and sometimes it is faked, and some of the time it is both a mixture of real and fake. **Think 1984** this is how mind conditioning mingled with mockery works—super-duper demonic! The Bible warns of all of this, but “Believers” Believe it Not.

I know it's hard to believe, but The Magick is often in Every Word as they will continue to be Rob(in)son(s) and daughters of every generation until the Lord comes in his Wrath to set up the Kingdom of God.

## Consider 5 Motivations of The Evil One (improperly translated as Lucifer KJV)

For *you have* said in *your* heart, (1) I will ascend into heaven, (2) I will exalt my throne above the stars of God: (3) **I will sit also upon the mount of the congregation** mowed (**appointed times of Elohim**), in the sides of the north: (4) I will ascend above the heights of the clouds; (5) I will be like the most High Isaiah 14:13-14 **Whether you believe it or not, I absolutely can assure you the Word of God )the Logos Theos) so perfectly predicted the matters in true propcey fashion.**

## Now Consider a Most Popular Symbol in the World

Pentagram is a five-pointed star is formed by drawing a continuous line in five straight segments, originated as a mystic and magical symbol; symbols of warfare between light [(or spirit) and darkness (or material forces)]. There are also 6, 7, 8 pointed stars (etc) everywhere!

**And Consider Prophecy in Scripture:** You are wearied in the multitude of your counsels. Let now the astrologers [habar-the dividers], the stargazers [chozeh-the seers], the monthly prognosticators [yada`-the knowers], stand up, and save you from these things that shall come upon you. Isaiah 47:13

And lest thou lift up [nasa'] thine eyes unto heaven, and when thou see the sun, and the moon, and the stars, even all the host of heaven, should be driven to worship them, and serve them, which the LORD your God hath divided unto all nations under the whole heaven. Deuteronomy 4:19. **Look Watch Think Pay Attention** how this **“IMMEDIATELY PROCEEDS”** the **10 Commandments given in Deuteronomy 5**. And then in Deuteronomy 5.11 You shalt not take [NASA] the name of the LORD [YHWH—Yahowah] your God in vain: for the LORD YHWH will not hold him guiltless that takes [NASA] his name in vain. **There is no such thing as a blatantly glaring coincidence brothers and sisters. Time to wake up!**

And the king commanded Hilkiah the high priest, and the priests of the second order, and the keepers of the door, to bring forth out of the temple of the LORD all the vessels that were made for Baal, and for the grove, and for all the host of heaven: and he burned them without Jerusalem in the fields of Kidron, and carried [NASA] the ashes of them unto Bethel.

**ProphecyMachine.com** 

**And he put down the idolatrous priests**, whom the kings of Judah had ordained to burn incense in the high places in the cities of Judah, and in the places round about Jerusalem; them also **that burned incense unto Baal, to the sun, and to the moon, and to the planets, and to all the host of heaven**. 2 Kings 23:5

Is not God in the height of heaven? and behold the height of the stars, how high they are! Job 22:12 **'Elowahh mocks those who “claim” they know how high the stars are**. Please see my work Creation and the Two Great Lights. In short, **Science defies Genesis 1.16** (et al) by claiming there are countless stars **“BRIGHTER”** than the Sun. They use **“DISTANCE”** as their basis for this claim, as this is why the stars do not look brighter than the Sun (and Moon), because they are Trillions and Quadrillions of miles from earth. This is all nonsense according to Scripture and Reality, as they have no idea how far away the stars are, because they have never been to one—simple! **Isaiah 14 ACTOR-NAUT** **“wanna-be-god”** in the text...soon to be destroyed! **Here is a Proper Translation:** How are you fallen from heaven, **boasting son of the morning howling!** how are you cut down to the ground, which did weaken the nations! Isaiah 14:12 The Kingdom of God is coming in the Name of Jesus—so be it the Good News of Our Father!
