

Dear Administrator(s),

## Want to reduce bullying?

Admiralty Consulting recommends this lower cost, research-based program that:

- **increases parent involvement**, specifically positive male role models at school.
- gives you extra eyes and ears to **monitor student behavior** in the hallways or playground.
- makes school a **safer place** where your students thrive academically and socially.

### A BEST PRACTICE PROGRAM

Admiralty Consulting, LLC provides assistance with implementing Watch D.O.G.S., a nationally recognized anti-bullying program designed to place more healthy adult role models in elementary schools. Allow us to manage the program and evaluate your data for effectiveness, with minimal burden on your teachers.

### WE OFFER:

- **Grant search and writing:** Admiralty can identify and aid in application for grants to fund your projects or initiatives.
- **Survey/assessment design:** we design and conduct surveys or assessments to identify specific needs, gather feedback from stakeholders, or evaluate the effectiveness of existing programs.
- **Program evaluation:** Admiralty conducts thorough evaluations of existing programs in your school to assess their impact, identify areas for improvement, and provide recommendations for enhancing effectiveness.
- **Professional Development:** we provide training to educators and staff in areas such as situational awareness/de-escalation or school wide positive behavior interventions/supports.

### WHO IS ADMIRALTY CONSULTING?

We are a Veteran-owned consulting firm based in the Shenandoah Valley. Our team has teaching experience in a variety of K-12 settings. Admiralty's goal is to create impactful and sustainable change in our communities. We want your school to be a safe place for all learners and staff.

# ADMIRALTY CONSULTING

Admiralty Consulting has researched the Watch D.O.G.S. program and found that it is a **Best Practice for Parent Involvement** based on Dr. Joyce Epstein's School-Family-Community Partnership Model.

According to the Virginia Department of Education's definition of bullying, Watch D.O.G.S. can be a **preventative measure in schools**.

This **case study in California** illustrates that Watch D.O.G.S. creates an **overall positive effect** among students, teachers, and parents. Students noted that they **worked harder in class and felt encouraged** by the presence of Watch D.O.G.S. Parents better understood their **child's academics and school procedures**. Both students and teachers noted that they **felt safer with Watch D.O.G.S. on campus** (p. 59).

## VDOE BULLYING PREVENTION RECOMMENDATIONS

- Implement **Social Emotional Learning**
- **Supervise** high risk areas
- Include **Families & Community members** in bullying prevention efforts
- Collect **data** on instances of bullying
- **Integrate** bullying prevention efforts
