Friendship Star

12” finished, 12.5” unfinished

For this block pick your favourite **bright** colour tone on tone. No secondary colours please. I have lots of favourites so couldn't stop at just one! You will also need **pure white** solid or tone on tone – no cream, grey or off white. And finally, you will need 4 pastels. Some subtle secondary colour is okay, but they must read as soft compared to your star fabric. Please use a different fabric for each corner.

We each have our favourite technique for making HSTs. Whichever method you use, be sure to trim down to 4.5” square.

To make star:

One square **bright** 4.5” for center

Two squares of **bright** and two squares **white** for HSTs *

To make corners:

Four squares of **pastels** and four squares of **white** for HSTs (enough for two blocks!)*

*The exact measurement for these squares is 4-7/8”. Most quilters round up to 5” but I like lots of wiggle room, so I cut my squares 5.25”

Press your seams towards the coloured fabrics whenever possible.
