Subject: Crimsom Meadows Dr Traffic Calming – Final Plan Vote

Dear Property Owner,

The City of O'Fallon has a process to request the installation of physical traffic calming devices to control speeds on subdivision streets. Property owners on **Crimsom Meadows Dr** submitted a petition to go through the process. The City of O'Fallon held an open house on 11/26/2024 in order to discuss the initial design process and solicit feedback from the residents of the neighborhood regarding the proposed design and any missing features they felt should be included. As a result, the City has finalized a plan for the physical traffic calming measures to be installed on **Crimsom Meadows Dr**.

The survey form and physical traffic calming plan are enclosed with this letter. Please return the attached survey by **2/11/2025** in order for your vote to be counted. The attached plan must be supported by 65% of the residential dwelling units for all ballots received to be considered by the City Council for implementation. There will only be one (1) vote per household. If the enclosed plan is sufficiently supported by the residents, then the plan will go before City Council for consideration with input from City Staff and the Fire Department.

Please contact me for additional locations of physical traffic calming devices, if required. **Please fill out the enclosed ballot and return it to me by the 3/11/2025 deadline.** If you have any questions, feel free to contact me at by e-mail at rfield@ofallonmo.gov or phone at 636-379-5407.

Sincerely,

Ruth Field,
Project Manager
