

## My Story

I am a self-taught artist who has been creating and selling my art for over 20 years. I love creating all these nautical pieces in Newport, RI where there is plenty of beach inspiration surrounding me. Each piece of artwork takes two weeks to create. I design my art work on glass and then glaze all of my one of a kind pieces with a fiberglass glaze and fire it. The glaze will never yellow or discolor in the sunlight and they are fine to be placed in the bathroom with moisture. My hope is that you will enjoy them as much as I love creating them. Thank you for supporting handmade art.

Thank you India Kenyon
