

PURCHASE AGREEMENT/ HEALTH GUARANTEE

Conditions and Terms:

HEALTH AND NUTRITION: Buyer agrees to keep the dog in good physical condition with regularly scheduled vaccinations, deworming, flea, tick, and heartworm prevention. The buyer also agrees to provide proper shelter, exercise, freshwater, dog food, pet care products and nutritional supplements as described in this agreement.

GUARANTEES: We do our absolute best to ensure that your puppy is in good health at the time he/she comes home to you. If your new puppy should die within 72 hours after you take him/her home, we will give you a full refund (not including shipping costs) if the death is based on the health of the puppy. We do not give a refund, at any time, if your puppy eats any hazardous plants, food, objects, medicine, poisons, gets hit by any vehicle, or runs away. If your puppy should die within the first year of life from a genetic based reason, you are required to provide written documentation by your DVM to our DVM (Dr. Lyle Mattson), stating the genetic condition. A replacement puppy of your choice (same value) will be provided OR the purchase price of the puppy (not including shipping costs) will be issued. Under no circumstances will we pay any vet bills you incur. This puppy must be seen within 48 hours by a licensed DVM for this warranty to be applied. You will receive in your puppy packet a complete health record and a Vet Certificate of Health for your DVM to review.

This guarantee does not cover any worms or parasites, as worms are very common and your puppy has been dewormed prior to going to your home. This guarantee does not cover any costs associated with spaying or neutering, nor does it cover injury or death from any routine surgical procedure. Further, this guarantee does not cover any of the following conditions or minor flaws including: coccidiosis, giardia, hypoglycemia, kennel cough, pneumonia, ear mites, ear infections, skin mites, mange (sarcoptic demodectic or cheyletiella), cherry eye or any other non life-threatening eye issue, skin or tissue issues, allergies, over or under bites, herniation, a non life-threatening open fontanel, non life-threatening bone or joint disorders such as but not limited to luxating patella and heart murmurs that are not life threatening.

Any exam performed by a DVM belonging to the Banfield network (PetSmart/Petco) will VOID this guarantee in its entirety. Should your vet find the puppy "unfit" for sale upon the initial examination, it will be replaced provided the puppy is returned with a written statement from the DVM stating the nature of their findings. North Star Doodles also has the right to have our DVM check the puppy prior to any exchange. It is the Buyer's responsibility to return the puppy along with all registration papers and other package contents. Seller shall not be responsible for medical expenses that the Buyer has incurred.

North Star Doodles cannot guarantee size, color, temperament, coat quality, shedding or non-shedding coats, or fertility (including presence of testicles) of any puppy.

The Seller will not guarantee the Leptospirosis vaccine due to its many adverse side effects. If the Buyer gives the vaccine, the Seller has no responsibility to pay for adverse reactions or problems that could be associated with the vaccine, even if not proven.

If the Buyer complies with all the terms contained within this agreement, then the Seller warrants the health of the puppy for one (1) year of life against genetic life-threatening genetic defects. In the event that the original Buyer sells this puppy, the warranty is void. The warranty does not transfer to anyone.

This document is a legally binding contract. There are no other warranties, expressed or implied, except as contained herein.
