Wednesday, Sept. 24, 2025, from 5:30 – 6:30 pm

In Person

Vineyard Surface Water Treatment Plant

10151 Florin Rd, Sacramento, CA 95829

ON-LINE: Register [HERE](#)

California Department of Water Resources

**Community Groundwater
Monitoring Pilot Program**

South American Subbasin (SASb) domestic well owners and other interested parties are invited to attend an informational meeting on a new **Community Groundwater Pilot Program (Pilot)**.

The Pilot, is being led by the California Department of Water Resources in collaboration with the Sacramento County **Drought and Water Shortage Task Force** and the SASb **Groundwater Sustainability Agencies**. The Pilot offers meaningful assistance to SASb domestic well owners that would like to monitor their wells. Meeting participants will:

- **Learn what the Program offers**
- **Find out how well owners can get involved**
- **Engage with the DWR staff on hand to get questions answered**

Program Benefits

Eligible participants will have access to benefits such as **training, equipment, and support**. The Pilot is designed to:

- Monitor groundwater *levels* – **not use**
- Build **community knowledge** and statewide monitoring coverage
- Be flexible to meet **local needs** and **interests**

Sign up for the Event and Pilot Program Updates by scanning the QR code or [here](#).
