Summit Fire
Flagstaff, AZ
July 17th & 18th, 2026

Foam and Compressed Air Foam Systems

Presented by:
Keith Klassen, Bill Dunlap, Ray Frey
and
John Roads

***Thank you to Summit Fire for the use of
their facility and two of their CAFS
trucks. Big Thank You to Allen Kester
and Kyle Davis of Summit Fire.***

2026 is an Election Year!

Interested in being an AFSMA office?

Every two years there is an opportunity to become part of the leadership team. You can nominate someone or yourself for any office.

The current logistics officer will be resigning from the position, so there is a special need to fill this position.

If you would like to submit a nomination for any office, please send it to [Bill Pisani](#) by October 5, 2026

Elections will take place at the October training.

Officer Positions:

- President
- Vice President
- Treasurer
- Secretary
- Logistics

Business Meeting

Secretary's Report: Reading of the minutes of last meeting.

Logistician's Report: Called to the membership for any suggestions for food and drinks.

Treasurer's Report: Treasurer was absent. Logistician gave report on his behalf. Account is in good standing, all bills have been paid. The largest expense this year has been for T-shirts.

Vice President's Report: We are still negotiating for the October training. Looking to have a full two days of training, Thursday and Friday, October 8 and 9, with EVT testing on Saturday morning, October 10, 2026.

President's Report: Thanks to Summit for hosting. Reminder that it is an election year with voting to take place at the October training. The ceremony to honor Edwing Cervantes as the EVT of the Year at the Chief's Conference was a bit rushed, but still very good. Looking forward to planning for next year's presentation to be more polished.

Old Business: None

New business: Finding training opportunities that are reasonably priced is difficult. Looking for a brake class and an electrical class that will most likely require a tuition.

Opened the Floor:

Pump Theory class as the Fire school to be conducted by Skippy Grimes and Mike Dulgar.

A welding class was recommended, but note was made of significant expense to host/ participate in the class. It may have limited class size as well.
