

INTERIOR DESIGN  
BY

Karen Jackman

# Nice to meet you!

02

**I'm Karen.**

I'm an Interior Designer.

My aim is to help you achieve your dream home and to ensure the whole process from concept to completion is enjoyable and an exciting collaborative journey.

I will immerse you in the very beautiful world of fabrics, paints, flooring, lighting, furniture and finishing touches that will inspire you in creating your perfect home.

Look forward to working with you!

Where my passion  
meets your needs

Great interior design is my business and my passion!

Offering a personalised and friendly design service is my focus to ensure your home reflects your style, personality and lifestyle.

I place importance on the practicality and comfort of the space I design. ensuring they not only look beautiful but are liveable and inviting.

I only take on a number of projects each year ensuring each client receives the time and attention they deserve.

01

## Consultation

Initially a telephone or video call followed by a visit to see in person the project and ascertain the scope of the overall project

02

## Architect and Builders

Working with Architect and Builders on larger projects requiring planning permission, drawings and instructing builders

03

## Design

Space planning and furniture arrangement  
Mood Boards  
Visuals  
Presentation boards along with swatch samples

04

## Project co-ordination

Working alongside trades to achieve the end result  
Devising a shopping list  
Purchasing, delivery and installation of all goods  
Bringing the design together with finishing touches

What I can  
offer

# Why invest in an Interior Designer

You can't visualise how your space will look and work for you

You want to be pushed out of your comfort

You are not sure what can be achieved

You feel overwhelmed by the whole experience

You would like help to find and enhance your style

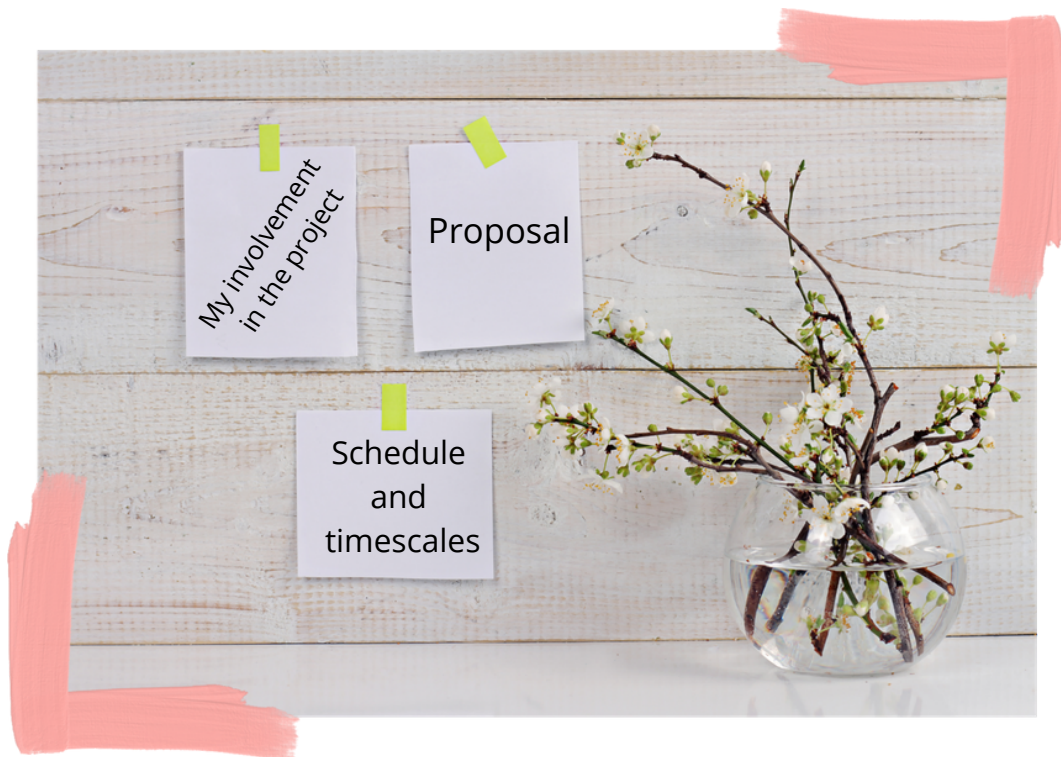

You need help to ensure your home is not only beautiful but also more functional

You want to add value to your property

You believe in hiring an expert

You would like an expert to manage the project

# How to Work with Me

01

## Initial discussion and involvement in the project.

We will have an in-depth discussion regarding how you would like me to be involved in your project.

02

## Proposal.

Following our discussions and meet I will produce a proposal detailing my design plan along with fee.

03

## Set schedule and timelines.

On agreement to the proposal a schedule will be produced along with timelines.

# Kinds words from previous clients

---

## Vicky from Milton Keynes

Karen is absolutely amazing and has the best eye for detail. She is personable and takes on every project with a wonderful attitude. Seeing the results from her recent projects, I have been in awe and she has given myself and her clients inspiration with breathtaking results. You can see how passionate she is and she invests her time to understand the clients needs.

## Nicola from Cornwall

Fantastic design service. Karen not only created a design for the refurbishment, she recommended all the products and dressed the apartment once decoration was complete. We asked for a coastal theme and Karen delivered above and beyond the brief. The refurbishment is stylish, calm, fresh, sophisticated and coastal.

## Richard from Aylesbury

Karen helped transform my bosses large downstairs living area. She worked seamlessly alongside the fit out company we used for the project and was instrumental in the kitchen design. Karen sourced and supplied all the furniture and soft furnishings making the whole experience less stressful than it could have been. Karen was also on hand to stage everything whilst the client was on holiday so it was ready for his return. One happy boss!!! I would 100% recommend Karen.

# Design Packages

All projects are unique and once we meet and discuss your project I will then produce a bespoke proposal for you detailing what you can expect from me. The proposal will be an overall fee and have no hidden costs, I do not work on an hourly rate, I work based on a flat fee. Anything extra that is expected from me which is outside the brief I provide, will be an additional cost.

All payments are at staged times throughout the design process

I have access to over 40+ trade accounts with many high street retailers as well as exclusive trade accounts to interior designers only which I will give you access to meaning ordering via my trade account will benefit you financially.

I have a list of recommended trades including builders, architects, decorators, plumbers, electricians, carpenters which I can recommend to you with as well as curtain makers and upholstery contacts  
I can also work alongside any trades you have already instructed
