Friendly Visiting

Our team at Wise Owls believes that visiting is essential for well-being in a senior's life and plays an important part in mental health. We understand the importance of building caring and professional relationships, therefore we will be sure our team and client are a good match. Our Friendly Visiting Program can include weekly home visits, social events, outdoor activities, leisure activities, etc..

Menu Planning & Preparation

Wise Owls will work with our senior client to plan and prepare menus that work with any dietary needs or preferences. We will help create menus that you enjoy and prepare those meals for you.

Pet Care

We at Wise Owls realize the importance of having a pet, as well as the responsibilities of being able to care for that pet. We can assist you by making appointments for your pet as well as providing transportation to the vet. If you do not have a pet, we can also schedule visits in your home with a responsible owner and their approved pet.

Errands & Social

Our Wise Owls team understands that sometimes it is challenging to just get out and get things done. Within this program we can assist you with anything from grocery pick-up, medication pick-up, mail delivery or pick-up, or maybe even delivering that birthday gift to a special friend.

Support Liaison

Wise Owls understands that it can be overwhelming, confusing and sometimes even difficult to keep track of appointments, to remember to take your medications or pay bills. A member of our team will assist you with any of these tasks and help make them easier for you. We can even attend appointments with you to be that extra set of ears so that important information is understood, as well as remembered.

Home Support

Wise Owls understands the importance of a kept space and its impact on well-being. We offer light housekeeping and yard care in a friendly and positive atmosphere. Housekeeping and yard care duties will be tailored to your preference.

Connecting & Touching Lives
