Stout as a Service

22 oz, Case of 12, Glass Bottle, Crown Cap

About this item:

Stout as a Service (SaaS) is a Russian Imperial Stout that delivers 99.999% satisfaction to your taste buds, with a smooth balance of bitter and sweet. SaaS blends a foundation of dark and specialty malts with molasses — and just a bit of spice from the yeast. The carbonation adds a smooth light texture over toasty coffee flavors, as roasted after-tones and hints of dark chocolate linger in the back for a short period.
