SHINING STAR - 1975

When we wished up on a star
Most of us wanted a Philadelphia Freedom
While others just wanted to have a Ballroom Blitz
While most of us were At Seventeen
We dressed like Rhinestone Cowboys
Or Stevie Nicks...

We never had A Night At The Opera
Cause we were born to run Springsteen style
While Lennon and Elton were with Lucy in the sky with Diamonds!!
These magicians, they made us smile
There were Love Rollercoasters
Which made us often Pick Up The Pieces
As we were Tangled Up In Blue or underfoot with Zeppelin

Alice Cooper Gave us Nightmares
And we all swore we were Not In Love
And Bowie made us Young Americans
The music of our youth we see is now the music of the world
The legendary greats who started in our year created songs so out of sight
The Captain was with Tenelle, Elton was Captain Fantastic
The Eagles took it to the limit and made magic with Sorcerer
Bruce was, and is still Boss, Rod Stewart brought in Boots and Hair

ELO still lights the night, and Paul Simon was still crazy which was all right

Patti Smith, Joni Mitchell, Linda Rhontadt, and Carol King

Diana Ross and Bette Midler showed us how the Ladies Sing

And Olivia, Joan Armatrading, Aretha, Tina and Barbra

Annie Lennox, Kate Bush and Dolly and Carly were and are the Queens

John Denver was our Country Boy, Thank God...

Bee Gees were already Jive Talkin'

While legend Frankie Valli has eyes that Adored You

Love will always keep us together, music will bring us to our feet

Through the decades we're still Seventeen and with promises to keep

So sing the songs that bring the joy and get you out and dancing

The soundtrack of our youth told us we are shining stars

It's true, it's really true so dance, and shine and be who you are...

We are Earth, Wind and Fire! Hey, we are A Shining Star...
