

Underclassmen-Sophomores

We sophomores bring a sharp new vitality to Warren that is sometimes overlooked. Helpless and almost always bewildered, we struggle to adjust in a new world. We find new friends in the battle, trying to become part of the spirit and school. We gather ideas and carry them out in various activities, with each one's new tricks, new traits for all adventures. Class time, play time, and lunch time, harmony sees us, working together. We plot the plans that one day will be ours to rule. Homecoming draws near, something very different and exciting to us. As our sophomore year ends, we look back on how it was at the beginning, and think of how it will be for us next year, united as juniors.
