Katie: Alyson pays all of the bills. The parties salaries which are transferred to their joint checking account are insufficient financial obligations of two households. The money in Tool Studios is the only source of money to pay their bills This has been the status quo throughout the marriage.

Please instruct Charles to leave the bill pay status qui. Clearly the court will frown on this unilateral change which leaves Alyson to pay the bills of her household.

We will be in court in 4 weeks.nothing should change

Charles' attempt to take over the bill pay is reckless and will result in Alyson borrowing money to pay the ordinary bills and expenses.

If Charles does not return the accounts to the status consider this notice that credit will be used to pay ordinary bills and litigation expenses

Allie:

Over the next few days I will be taking control over all accounts except for personal checking and savings, while I try and get a handle on spending. At this rate we will be out of cash in less than 30 days.

I have tried to ask you to many times for help and to work with a third party person and you have refused even though you agreed to post mediation.

Carol has been notified. If any issues pop-up just use this app, my goal is not to take anything away from you and not leave you without, it is only to get a clear understanding of the books to even see if it is worth salvaging.

All you had to do was choose to be supportive vs combative.

Hopefully I can get this done...Questions will be presented as we work through the issues.

NO transferring money
