

SAVARY ISLAND

FERRY SERVICES

As the owner of Savary Island Ferry and Barge I would personally like to thank you for supporting our new service to and from Savary Island. We are super excited to see you onboard one of our vessels in 2020. If you have any concerns or amazing ideas to assist us in making our service the number one choice, please reach out so we can continue to offer you an amazing one-stop marine transportation experience.

Some information to assist you in finding our 13 acre property in Finn Bay, Lund.

Here is a link to our facility in Finn Bay -

- Returnable Bottles and Cans Recycling - A portion donated to Local Volunteer Fire Departments
- Tent Camping Platforms 10x12 \$ 30 a night
- RV Sites: \$55 a night

Reminder there is no garbage disposal or recycling services on the island which means if you create garbage and recycling, you need to remove it when you leave. Please consider this when you're packing to come over to enjoy this amazing island.

NO PUBLIC WASHROOMS are available on the island as there are no septic services. Consider this when using beach facilities and public areas.

SPEED LIMIT IS 20 KM/HR FOR ALL VEHICLES. There are no general taxi services on the island. The best way around the island is by bike.

Our staff work really hard to make your experience with us a great one. If you feel our staff have exceeded your expectations, please feel free show your appreciation.

We look forward to seeing you onboard and on the water.
Thank You,

Team Savary Island Ferry

We require your group to arrive a minimum of 20 minutes prior to your reservation time if you're travelling with cargo. This will give you time to unload your vehicle and cargo into our 3000 sq foot staging area. The protected staging area will have marked departure times on the wall. Please organize your cargo neatly into your scheduled trip time. Please don't go down to the dock until you are invited by one of our staff. Once directed by your captain, we will weigh your cargo and tag it for its final zone destination on Savary Island. (85lbs per passenger included) Boarding the vessel will start approx 10 minutes prior to the departure time and will be loaded by zone. Once your zone is called please bring your cargo down to vessel and it will be loaded by the captain.

Cargo - please pack your cargo in bins with lids as all cargo travels on the outside deck of our vessels. It also keeps the birds and animals out of your cargo. Bins can't weigh more than 35 lbs as they become a lifting hazard for our crew. If you are connecting onto our Savary Land shuttle, please follow your shuttle driver's instructions for loading as we will load cargo based on where you will be dropped off on the island. We will do our best to get everyone's cargo onboard our vessel and land shuttle, however if there are large items that don't fit, we will tag them for delivery on a future run and it will be dropped off by land taxi.

LOADING ZONES

Our vessels and crew are Transport Canada certified and are ready to welcome you onboard. It is a requirement for us to know who is onboard our vessels in the event of emergency, as well for us to advise our passengers of the safety equipment onboard our vessels in the event of an emergency. Savary Island Boarding Passes will be handed out when you arrive. Please fill this out as your captain will collect it upon departure. We strive for on time departures and can't delay vessel departure for late passengers.

All passengers must have a reservation to return to Savary Island - www.savaryislandferry.com

Savary Island Government Dock

This dock becomes very congested with up to 48 passengers loading and unloading at the same time. With passenger safety in mind, we ask passengers to keep the dock area free from outgoing (to Lund) cargo and passengers until the vessels are fully unloaded. Passengers arriving to Savary will unload their cargo onto the dock in a spot that doesn't block access to outgoing passengers so they can load once the skipper has approved loading. This will minimize traffic on the dock and ramp providing streamline loading and unloading in a safe way.

Upon arrival to Finn Bay, we ask that you follow the exit signage to expedite the unloading process. We will hold the out bound passengers and cargo until the cargo is unloaded to minimize traffic on the dock.

P Vehicle Valet Service - Once your vehicle has been unloaded please park your vehicle in the parking pending area with your keys and parking tag in a provided zip lock bag on the drivers seat and the drivers door unlocked. Your vehicle will be transferred to our parking area by one of our staff. Upon returning back to Finn Bay please fill out our Valet Vehicle Return form located on our website at least 12 hours prior to returning so we can have your vehicle ready for you to load upon arrival.
