

INTERNSHIP AT RETINA FOUNDATION OF THE SW

Funded by a grant from the ExxonMobil Foundation

ExxonMobil Community
Summer Jobs
Program

The Retina Foundation of the Southwest is an independent, nonprofit research institution whose mission is to prevent vision loss and restore sight through innovative research and treatment.

Research in the Vision & Neurodevelopment Laboratory focuses on how amblyopia (lazy eye) impacts children in their everyday lives. Amblyopia is a vision disorder that affects 1 to 2 children per classroom.

The Summer Intern will work as part of a research team studying fine motor skills in children with amblyopia.

INTERN DUTIES:

Contact and schedule patients
Screen for amblyopia and conduct vision and fine motor tests
Record and review data and assist in analysis
Gain experience in medical research

SKILLS & QUALIFICATIONS:

Undergraduate, returning to school fulltime in Fall, 2020
Interest in biomedical research or medicine
Comfortable working with computers
Enthusiasm for working with children

SALARY:

\$2,750 for 8 week period, 35 hours per week

APPLY BY EMAIL ONLY. SEND RESUME & COVER LETTER BY April 3, 2020 TO:
kkelly@rfsww.org
