VERIFY BEFORE YOU TRADE

In oil trading, trust begins with verification. Before any commitment, confirm who you are dealing with: company registration, authorised signatories, banking details and the product documents behind the offer.

A few careful checks at the start protect the whole transaction.

RISK IS MANAGED, NOT IGNORED

Every transaction carries risk: counterparty, payment, quality, logistics and compliance. The strongest deals are not risk-free. They are the ones where each risk is identified early and answered with a clear safeguard.

Identify it. Verify it. Manage it.

IDENTIFY

Name every risk

CLEAR TERMS, CONFIDENT DEALS

A successful transaction starts with clear terms. Product specification, quantity, price basis, delivery terms, payment instrument and documents should be agreed in writing before the first step is taken.

Clarity today prevents disputes tomorrow.

DOCUMENTS PROTECT DEALS

In international trade, documents carry as much weight as the cargo itself. Inspection reports, certificates, invoices and shipping documents must be consistent, complete and verified before payment and delivery.

Check the paper. Protect the deal.
