Strategic Procurement Transformation

NEOM & Major KSA Masterplans: Commercial Director

Challenge

To mobilise and govern multi-billion-riyal procurement within aggressive development schedules for national giga-projects such as NEOM and other confidential Saudi masterplans.

Approach

Designed end-to-end procurement tracking and implementation systems integrating CAPEX/OPEX governance. Drove engagement with international master planners and consultants. Ensured compliance with Kingdom-level governance standards and client transparency protocols.

Results & Metrics

2.5 bn SAR of contracts procured and negotiated within 18 weeks. Delivered transparent procurement process meeting highest governance standards. Established cost-forecasting systems linking to FP&A and project controls, replicable across giga-projects.

Aidiation Insight

Model exemplified agile commercial assurance, a key Aidiation differentiator in driving value, transparency, and accelerated procurement outcomes across large-scale KSA developments.

AI-Powered Procurement Enablement

MENA: Principal Consultant & Digital Transformation SME

Challenge

Regional clients in the MENA region sought to accelerate digital procurement maturity and AI adoption across fragmented Source-to-Pay ecosystems.

Approach

Delivered AI-driven value engineering workshops for C-suite stakeholders. Integrated Generative AI, RPA, and NLP analytics into ERP/S2P platforms (Coupa, Ariba, Ivalua). Defined new Target Operating Model with centralised procurement services and AI-enabled spend compliance.

Results & Metrics

Deployed core model in 10+ countries, managing €500 m+ indirect spend. Automated supplier-risk and spend-analysis workflows, cutting cycle times by 30–40%. Delivered measurable uplift in “Spend under Control” and stakeholder satisfaction indices.

Aidiation Insight

AI transformation frameworks underpin Aidiation’s advanced procurement proposition bridging human expertise and machine intelligence for measurable ROI.

Centralised Procurement & Cost Optimisation

KSA & UAE: Procurement & Supply Chain Director

Challenge

Fragmented procurement and logistics functions across multiple FM contracts in the UAE and KSA lacked scale efficiency, data visibility, and governance consistency.

Approach

Designed and executed centralised category-based model. Consolidated 40 stores into 1 central warehouse, integrating WMS and Power BI reporting. Automated manual workflows and introduced procurement policy frameworks aligned to ISO standards.

Results & Metrics

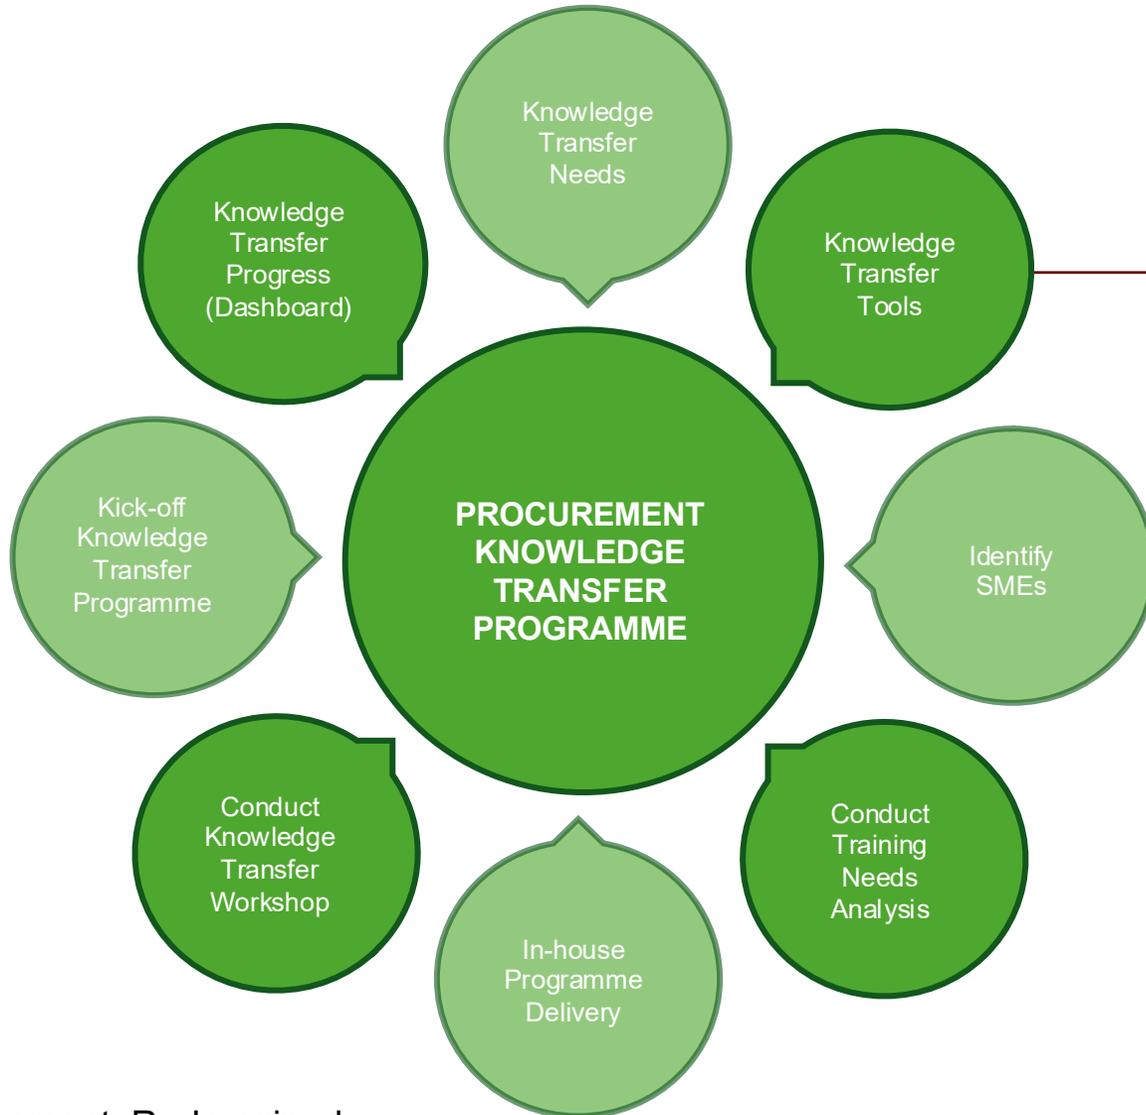

Annual managed spend: SAR 800M (USD 218M). SAR 18M annualised savings. 11% logistics-cost reduction and 35% reduction in paper product consumption. Increased procurement efficiency and governance maturity across 7 geographies.

Insight

Data-driven transformation illustrates Aidiation's approach to operational excellence, by embedding analytics, automation, and category management principals across client portfolios.

Governance & Learning Assurance

Procurement Knowledge Transfer Programme (PKTP) Quality Manager & L&D Specialist

Challenge

To embed procurement knowledge-transfer and capability development standards within a growing consultancy ecosystem and client-learning platforms.

Approach

Applied UK-regulated Quality-Assurance frameworks (OfS, QAA) to build Aidiation’s internal Procurement Knowledge Transfer Platform. Introduced data-driven performance metrics and LMS-based feedback systems. Facilitated stakeholder engagement sessions ensuring inclusive, auditable learning pathways.

Results & Metrics

Improved compliance and audit readiness across training deliverables. Increased learner satisfaction and completion metrics by >25% through redesigned curriculum structure.

Insight

Aidiation’s experience ensures thought leadership in procurement education governance, aligning continuous learning with measurable outcomes and regulatory confidence.
