In our journey of sharing Heather's messages and inspiring people to live their best lives, a brand kit is our compass. It's a set of guidelines that keeps our brand on the right track. Let's see why it's vital:

### **Consistent Identity**

It makes us look and feel the same everywhere, building trust

### Scalability

We can grow without losing our identity and style

#### **Professionalism**

It gives us a polished and trustworthy image

#### **Emotional Connection**

It helps us connect with people through our story and values

### About Us

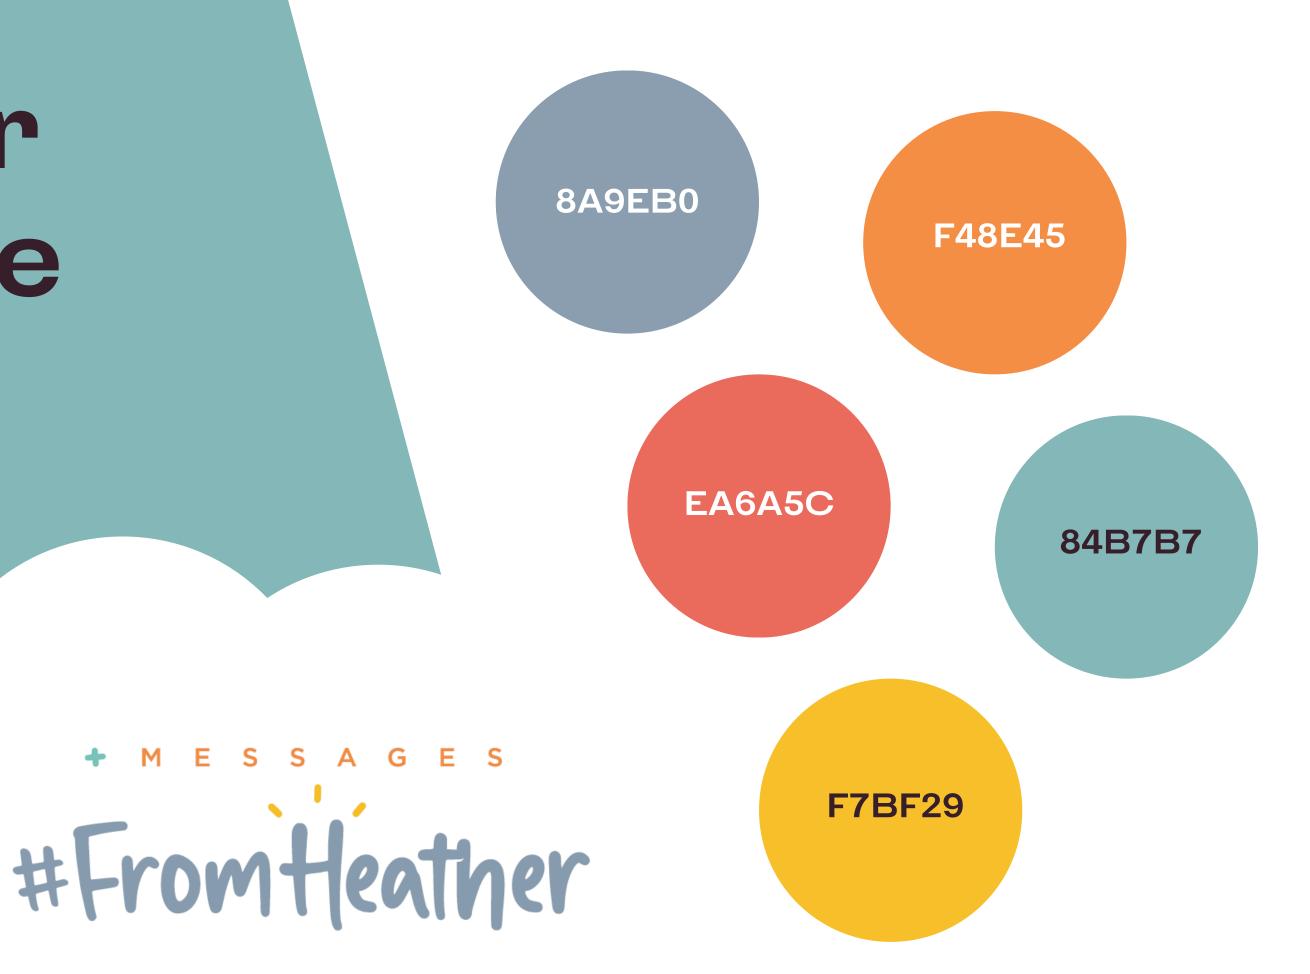

Messages #FromHeather is a legacy project to ensure Heather's light and love for life live on.

Heather was a beacon of hope for others, an inspiration to many, and a strength to everyone who knew her. Cancer may have cut her time on earth short, but it didn't take her love of life, her joy, her sense of adventure, or her passion from her. We want to ensure to share her powerful messages with the world to inspire people to live their best lives, do what they can with what they have, don't put off to tomorrow what can be done today, and to love those around them.

- happy colour scheme
- rays that help the message "shine"
- personable font types to make the messages more approachable

## Brand Voice

Our brand's voice is a beacon of positivity and inspiration. It's more than just words on a screen or a decal, it's the essence of Heather's journey, conveyed through uplifting messages that resonate deeply with our community. It's how we connect with you, our community, fostering trust and understanding. Consistency in communication is key, ensuring every interaction with Messages #FromHeather leaves you feeling uplifted, educated, or inspired.
