We are very close to memberships for 2024 as we were for 2023 with 5 months still remaining in the membership year.

Online registration for memberships and all provincial events (except Indoor Target Provincial Championships) were developed by SAA using the 2M/Interpodia platform again this year. There are always some minor hiccups in the registration processes but these are usually user error and can easily be resolved by emptying your cart and starting over. Hopefully these glitches will become less and less as users get used to the system.
