CHIEF'S REPORT By Kyle Durko

Last year, we were able to accomplish many things within the Fire Company and I would like to thank our members for volunteering their time in so many different capacities. Our first responders went above and beyond, logging in many hours, which keep increasing each year. Our paid EMT crew made a huge difference in the number of our response calls.

I'm happy to report that we gained seven new member candidates. This is crucial to maintaining a first response crew and administrative support team, especially for the next generation of volunteers.

Looking forward to 2023, my goals for the year are:

- Increase and retain membership
- Increase the number of certified firefighters
- Update our current building and facilities

EMS CAPT'S REPORT By Brandon Betley

2022 was a trying year for the Emergency Medical Services side of the Fire Company. With around 250 dispatches for people in need, the ambulance wheels were always turning. I would like to thank all of our First Responders who answered the call, even when it was not at the most convenient time for them. Your dedication and resilience does not go unnoticed, and it makes a difference in the community and surrounding areas.

To kick off 2023, I would like to focus on increased training to stay sharp on our skills for when they are needed most. A new ambulance is also in production for our Fire Company, which will bring reliability to your door when you make the call for assistance.

If anyone is interested in volunteering, whether it's firefighting, Emergency Medical Services (EMS), or helping out with fundraisers, the firehouse work-nights are every Tuesday from 6:30 - 7:30 p.m. Come on down and see what happens behind the scenes, and learn how you can make a difference!
