

Required items:

- Refillable water bottle
- Weather-appropriate clothing
- Closed-toe shoes for activities

What Not to Bring to Winter STEAM Lab

To ensure that every student has a fun and safe experience, we ask that you please leave the following items at home:

- **Electronics (Tablets, Phones, Video Games, etc.):** We want students to be fully engaged in hands-on activities, and electronics can be distracting. If your child needs a phone for emergency purposes, please notify us beforehand, and it will be kept in a safe place.
- **Toys & Valuables:** Students are encouraged to focus on the activities provided by the STEAM Lab. Toys from home can be easily lost or damaged, so we ask that they are left at home. Please avoid bringing items of high sentimental or monetary value (e.g., expensive jewelry, collectibles).
- **Personal Items that Could Get Lost or Damaged:** We recommend not sending items that could be lost, such as stuffed animals, sports equipment, or fashion accessories.

Thank you for helping us create a distraction-free and organized environment!
