1. Practice Applying For: (Please Check Box)

- Grassed Waterway
- Sediment Basin (excludes cleanout)
- Wetland
- Stream Bank Stabilization
- Structures (block/rock chutes/toewalls/pipe)
- Terraces/WASCOBs
- Strip-till (first time fields only)
- Cover Crops (first time fields only)
- Other: _____

2. Cost Share Payment: The amount of cost share payment is based on several factors including but not limited to project type, location and overall cost the project. Payments are assistance to help implement best management practices. Payments are approximate and may result in assistance of up to 60-75% of the cost of the project.

3. Practice can be constructed in: Spring____ Summer____ Fall____
4. MCSWCD encourages that the applicant acquire at least three (3) estimates for the proposed project (cost share payment will be based on the LDWP Avg Cost List if within the Lake Decatur watershed, or the PFC Cost Share List if outside the Lake Decatur Watershed).
5. The MCSWCD requires the applicant to meet “T” (tolerable soil loss) in the field where the practice is installed. For most fields, this will mean using, at least, a conservation tillage system or chisel disk system.
6. Land user agrees to allow free access to the property where the land adjustment, soil conservation project or cropping management project is to be constructed, installed, or implemented for the purpose of planning and ranking the project. Neither the District or its representatives, nor the landowner or operator will be liable for any damage to the other’s property in carrying out the provisions of this agreement, unless such damage is caused by negligence or misconduct.
7. Cost share dollars will not be used for partial payments for components or any other appurtenances of projects unless conservation practice is completed and meets NRCS Standards.
