8th International Leh Symposium 2026

Therapeutic Targets and Molecular Mechanisms for Pulmonary Diseases in Hypoxia

McLeod Ganj, Dharamshala, Himachal Pradesh, India

The Leh Symposium, since 2010, has focused on pulmonary vascular diseases associated with low and high altitudes. This biennial conference offers a dynamic scientific program, bolstering clinical research, therapeutics, and global awareness for preventive health initiatives. We welcome our esteemed participants' contributions.

Save the dates
October 23-27, 2026

Abstract submission deadline
June 30, 2026

Dr Qadar Pasha
Founder, Hypobaric Hypoxia Society, India
Dr Max Gassmann
University of Zurich, Switzerland
Dr Tashi Thinlas
