HOW WE ADD VALUE

Reliable

Reliability is fundamental. We often trade with counterparties that are strategically important in their respective economies. We invest around the globe in infrastructure, storage, transportation and logistics to deliver on-spec physical commodities where and when they're needed.

Responsible

We apply consistent standards globally and operate responsibly in a wide range of political and cultural environments. Our culture is founded on a service ethos. Individually, we expect our people to act with a high degree of personal integrity. As a Group, we strive both to meet and to develop international best practice.

Efficient

In a high-volume, low-margin business we emphasis service and operational efficiency. We enjoy significant economies of scale and access to low-cost funding. We create and supplement local infrastructure and develop multimodal logistics to streamline and simplify supply chains.

CHARTERING & SHIPPING

Our integrated logistics and supply chain strategies enable us to navigate the intricate landscapes of petroleum derivatives and investment with precision. By ensuring the seamless movement of products and information, we uphold our mission to deliver value to customers, partners, and investors while contributing positively to both industries and the environment.

Logistics provides shipping and freight services to various commodity trading teams and third-party clients.

HOW WE DELIVER TRADE

OUR VISION IS OF AN INCREASINGLY INTERCONNECTED AND PROSPEROUS WORLD WHERE PHYSICAL COMMODITIES PASS SEAMLESSLY FROM THEIR POINTS OF ORIGIN TO POINTS OF NEED.

HSEQ POLICY

Establishing clear, measurable Quality Objectives in all areas of operation. Continually monitor, review and strive to improve the Quality System and process.

Our customers are our lifeline we will establish partnerships at all levels with our clients so that we completely understand customer requirements meet all mandatory requirements whether Local, National and International for regulations and statutes wherever we work.

Reduce our impact upon the environment through adjusting aspects of our performance. Raise awareness among all the employees, to ensure that they are aware of the contribution that they make towards the client, their safety and the impact upon the environment. Define responsibilities and lines of communication for each department or discipline.
