In Re: Clemency consideration for Richard Berger #86-C-0790

Dear Governor Hochul,

My name is JACOB SINGER, and I am writing a letter on behalf of Richard Berger, so that you can consider him for Clemency this year. He has over 37 and half years in prison, and he deserves a chance to get out a become a meaningful member of society. He is not the young and unformed person he was back then. He has matured to a middle aged man who is caring and good. I know, given the chance, he would become a productive member in any community. He has the classes, certificates and letters in his files, I'm asking you for a chance for him. Thank you very much.

JACOB SINGER
