To Whom It May Concern,

I strongly recommend 5PillarsINC. to bring its exceptional programming to additional schools. As an educator at Nathan Hale, I have witnessed firsthand the profound impact of their programs on our middle school students, particularly in fostering intrinsic motivation, personal growth, and leadership skills.

The programming provided by 5PillarsINC. has been instrumental in helping students develop a sense of ownership over their learning, inspiring them to set and achieve personal and academic goals. Through engaging activities, mentorship, and a curriculum rooted in character development, critical thinking, and self-discipline, students have shown remarkable improvements in their confidence and motivation.

One of the most powerful aspects of 5PillarsINC. is its ability to tap into students' inner drive. Rather than relying solely on external rewards, students develop a genuine passion for learning and self-improvement. They begin to take initiative in their education, collaborate more effectively with peers, and display resilience in the face of challenges. This transformation is evident in their academic performance and their behavior, decision-making, and leadership within the school community.

Bringing 5PillarsINC. to more schools would be a tremendous asset to both students and educators. Their structured yet flexible approach ensures that every child is engaged, empowered, and equipped with the tools for lifelong success. I wholeheartedly support their expansion and encourage any school seeking to ignite a deeper sense of motivation and purpose in their students to partner with 5PillarsINC.

Sincerely,

Halia Yarbrough M.Ed.
