## What's Happening in Hunt Garden Club?

### Beehive Project

**(Vivian Morse)** – The bees were protected with additional cover during the recent winter storms. They have also been fed sugar syrup and protein on our intermittent warm days, before and after the storms. There has been a lot of activity around the hive on those warmer days, a good indicator of a healthy, expanding bee population.

### Hydroponic Garden

**(Bernadell Larson)** – The project is proceeding on schedule, with the first lesson on March 23<sup>rd</sup>. Students will be introduced to the growing system and the history of lettuce will be discussed.

### Scholarships

**(Gretchen Harris/Ruth Johnson)** - Due to the recent winter storm event and the ongoing pandemic challenges, the Scholarship Committee decided to give the students more breathing room and change the application deadline from Friday, March 12 to Monday, March 29. The Treasurer, Social Media Chair and Community Relations Chair have all been notified. Our website and Facebook page will be updated and an article will be drafted for the newspapers.

## More Happenings

### Social Media

**(Mitzi Silber)** – Social Media has been a bit quiet - it sure will be nice to attend a meeting again and have some club news to spread around.
