## Providing high quality dental services for you and your family.

### Do You Have a Dental Home?

Oral health can impact how you eat, speak, smile and show your emotions. Poor oral health care can impact your self-esteem, school attendance or job performance.

Having a dental home decreases your risk of cavities, gum disease and even oral cancer. It also lowers your risk of future dental treatment.

We want to keep you and your mouth healthy. If you need a new dental home, Wood River Health is welcoming new patients!

### Our Services

Our Dental Team provides comprehensive services with a focus on preventative and restorative dentistry. We offer:

- Exams
- Oral cancer screenings
- Cleanings
- Sealants
- Fillings
- Extractions
- Root Canals
- Crowns
- Bridges
- Partial dentures
- Complete dentures

### Dental Care is Critical at Every Age

We help people at every stage of their lives. The members of our board-certified dental team care about the health and well-being of our patients.

Did you know that babies can get cavities? Children should be brought to a dentist by age one for a checkup to make sure their teeth start and stay healthy.

To learn more about our services or to schedule an appointment, call 401.539.2461. We can't wait to see your smile!
