

All Families Should Have Access to Community Support

As a Federally Qualified Health Center, Wood River Health understands it takes more than seeing your health care provider to maintain your health and wellness.

Our Community Resources Team is here to assist our patients who have basic needs that span beyond the scope of health care.

We connect individuals and families with valuable resources and support to help improve their quality of life. To learn how we can help you or a loved one, call 401.539.2461, Ext. 240.

COMMUNITY RESOURCES

WOOD RIVER HEALTH
Caring for Our Community Since 1976

Connecting families with resources and support to improve their health and wellness.

Social Determinants of Health

Your social determinants of health are determined by where you live, learn, work and play. Each of these factors can impact your quality of life.

Your health and wellness are linked to:

- Where you live
- Where you work
- Your type of lifestyle
- What you eat and drink
- How much education you have
- The safety of your neighborhood
- Access to transportation
- Your Social Supports

Supporting Our Community's Families

To achieve a healthy lifestyle, families must have access to:

- Quality health care
- Sufficient education
- Economic stability
- Nutritious food
- Convenient transportation
- A stable living environment
- Social support

During annual visits, our providers ask every patient if they need help accessing any of these resources. If they do, they are connected with a member of our Community Resources Team.

How We Can Help

Our Community Resources Team works with patients to help:

- Navigate health insurance plans
- File, fax and mail applications
- Access quality health care
- Check eligibility for Sliding Fee Scale
- Meet basic needs
- Obtain food and SNAP benefits
- Secure affordable medication
- Access transportation
- Connect with housing resources
- Manage financial concerns
