

123BIM Utilized to Communicate State Road 538 (Poinciana Parkway) Extension to County Road 532

RDV SYSTEMS | CFX SR 538 Poinciana Parkway Extension Virtual Tour

Project Owner: Central Florida Expressway Authority

The Central Florida Expressway Authority (CFX) is designing the extension of State Road 538/Poinciana Parkway. The extension is being designed in two segments. Segment 1, from Ronald Reagan Parkway to south of US 17/92, and Segment 2, from south of US 17/92 to County Road 532, are expected to improve traffic flow and operations in the area.

The 3.1-mile project extends the Poinciana Parkway from Ronald Reagan Parkway to CR 532, and includes nearly a half mile of bridging over wetlands within the Reedy Creek Mitigation Bank. Design also includes an interchange at US 17/92, tolled ramps at CR 532, and bridges over the CSX railroad, Old Tampa Highway, and US 17/92. A noise analysis has been performed as part of this project.

123BIM Production Schedule

- ✓ 8/16 Files requested for scoping
- ✓ 9/1 Final scoping files arrive
- ✓ 9/12 Proposal submitted
- ✓ 10/10 NTP
- ✓ 11/1 First draft delivered
- ✓ 12/8 Ninety percent design delivered
- ✓ 1/13/23 Final delivered
- ✓ 1/17/23 PIO meeting

A 123BIM Virtual Tour is shown on a large touch screen monitor to help communicate the complexities of engineering to the public.

“The 123BIM virtual tour provided by Real Image Solutions was nothing short of miraculous, transporting you years into the future with just a click of a button. 123BIM has opened the doors to the future of transportation infrastructure and allowed users to understand the vision expressway agencies are making a reality for drivers.”

Kevin Camara, former Senior Communications Manager Quest Corporation of America who served as a CFX Public Information Officer for the SR 538/Poinciana Parkway extensions project.
