

\$1,865.00 Comprehensive Survey Package

(Offer good January 1st through the 30th, six contracts only)

We will receive, enhance, program, deploy, analyze, and provide a data summary on a survey project for less than \$2000.00. No small print and no surprises. How? TechnoPsychology and over thirty-seven years of experience. We have developed digitized inquiries going back to the VAX Platform. Yes! JCL!

We weren't around when punch cards were in play, but we saw a few boxes in the room. We've got a process; like fine wine, it gets better with time!

Go to probeconsulting.com, and right under the "Subscribe" dialogue, use the "Contact Us" box to send us a message and tell us about your project.

Details

1. Send your survey to our secure portal in Word or any machine-readable format.
2. Maximum of twenty-five items with minimal skip-logic requirements.
3. The target population is less than or equal to 10-K.
4. Analysis and data output summary included.
5. Basic PowerPoint or web-based data presentation included.
