## Commercial Capability Statement

---

# Commercial Stump Grinding & Vegetation Removal

## Auckland Wide

Fast, professional stump grinding and root removal services for construction, civil, infrastructure, landscaping and commercial property projects.

---

## About Stumpx

Stumpx is an Auckland-based stump grinding and vegetation removal contractor servicing residential, commercial and infrastructure projects across the wider Auckland region.

We specialise in safe, efficient stump removal solutions with a strong focus on:

- Commercial and residential construction sites
- Tight access work
- Fast response callouts
- Arborist subcontracting
- Site clearance and preparation

Stumpx combines practical field capability with professional project coordination and communication.

Our background in commercial construction and project management allows us to work effectively alongside contractors, site managers, landscapers, developers and infrastructure teams.

# Our Services

## Commercial Stump Grinding

Safe and efficient removal of tree stumps from construction, infrastructure and commercial sites.

## Residential Stump Removal

Removal of unwanted stumps for homeowners, landscaping projects and property upgrades.

## Tight Access Stump Grinding

Tracked equipment capable of accessing narrow and difficult sites.

## Arborist Subcontracting

Reliable subcontract stump grinding support for tree companies and arborists.

---
