### New Faces

#### Tina Meyers HR Manager

Being an Arizona native, I love it here! I have worked in restaurants since the day I turned 16 starting as a hbr and then gradually moving to server. I received my first promotion to supervisor shortly after, then progressed to full time manager and never looked back. My angry Crab journey started 5 years ago in Mesa. During my Crab career I have made stops in Mesa, East Mesa, Phoenix, and the traveling training team. I had the opportunity to interview for a role in the human resources department and jumped at it. I am excited to take on this new chapter of my career and couldn't think of a better company to do it with. I am excited to partner in the development of our HR department. I look forward to supporting our restaurants and remember my door is always open to assist in the needs of our family.
