When it was unsafe to meet face-to-face with a Notary, most states temporarily or permanently authorized notarial acts to be performed online. In so doing, the Notary Public office was fundamentally changed as more notarizations were performed using technology than ever before. All Notaries – both up-and-comers and seasoned veterans – can use a “field guide” to navigate this new world. They need <i>The Notary Public Code of Professional Responsibility of 2020</i> to guide them in finding the “true north” when providing both traditional and technology-based notarial services.</p>	<p>Bill Anderson Vice President, Government Affairs National Notary Association Keynote Speaker</p>
