### **About the RON Pilot Program**

Under the leadership of Elaine Wright Harris, this program is designed as a step-by-step learning experience, with monthly assignments that build your skills layer by layer.

The first two months (December 2025 and January 2026) focused on:

- Understanding the RON process
- Becoming familiar with the vendor's (BlueNotary) platform
- Learning the workflow, tools, and requirements
- Building comfort with the technology

You've laid the groundwork—now it's time to apply what you've learned.

Your upcoming assignment is one of the most valuable parts of the program. You will be paired with another notary to conduct a hands-on practice RON session. This exercise allows you to:

- Experience the full RON process from start to finish
- Practice communication, screen sharing, ID verification, and document handling

- Build confidence before working with real clients
- Strengthen your technical and procedural skills

If you would like to be paired with someone you know who is participating in the program, please enter their name when registering. (*Registration information can be found below.*)

If you do not have a partner and would like to be matched with one, simply indicate that on your registration form. (*Registration information can be found below.*)

This practice session is structured to reflect real-world conditions, helping you feel confident, capable, and fully prepared for the next phase of your notarial journey.
