

BUSINESS PARTNER

INVESTOLANE™

WWW.INVESTOLANE.IN

About Company

INVESTOLANE was incorporated in the year 2021. The idea to start this company was generated during the COVID-19 lockdown when most of the businesses were going digital. INVESTOLANE was started with the purpose of helping everyone invest in current & future digital assets via multiple online products to build wealth and to gain investment literacy.

Note: We do not deal in cryptocurrencies and/or NFTs.

What we do?

We help our clients choose the right digital investments. Currently we help clients invest in: Stocks, Private Equity/Unlisted Shares, Startups, Bonds, NCDs, PMS services & much more. We continually thrive to add more products to our portfolio.

We "professionally" function as an advisor for our clients to understand investment products in depth. For us it's not just about selling our products or services, it's more about helping clients know and understand these products better than before so that they take their own decisions.

Individual Business Partners (IBPs)

Since our start in 2021, we have been focusing on adding individual business partners (IBPs) with us. These IBPs help people invest in our digital asset products, however service to clients is provided from our end only. These IBPs earn on the referral and/or commission basis.

To become an Individual Business Partner:

- One needs to have a keen interest in our investment products.
- One needs to pay one-time non-refundable fees of 1,000rs.
- One needs to have an active bank account and PAN card.

IBPs - continued.

All our IBPs will receive information on:

- List of unlisted companies available with us.
- List of companies with recommendations to buy or sell.
- Unlisted companies reports, as and when available.

Business Commission earned will be based on:

- For successful lead conversion - 15-25% of the profits earned.
- For successful lead conversion + IBP's complete interaction with client - 35-40% of the profits earned.

Note: Profit is net profit generated by INVESTOLANE in the any deal.

Group Business Partners (GBPs)

From this FY, we have also started to enroll in Group Business Partners. These are organisations, companies who work with INVESTOLANE and help people invest in our digital asset products and also provide complete services as per our standards.

To become a Group Business Partner:

- One needs to have a company currently servicing in the investments sector (directly or indirectly).
- One needs to pay one-time non-refundable fees of 25,000rs.
- One needs to have a physical or remote office.
- One needs to have a company bank account.

GBPs - continued.

All our GBPs will receive information on:

- List and pricing details of unlisted companies available with us.
- List of companies with recommendations to buy or sell.
- Unlisted companies report, as and when available.
- Representatives from INVESTOLANE for training, service, and other purposes as and when required.
- On-demand direct service to clients is also available.

GBPs - continued.

Business Commission earned will be based on:

This will vary based on the company's total clients, office zone and service level agreement finalized between both the parties.

If interested in becoming our GBP, please contact us at connect@investolane.in and/or +91 96755 32143; +91 135 3596073 to get more information.

OUR VISION & GOALS

We aim to become "the most trusted & preferred" online/digital investments company for all in India and also elsewhere.

We aim to spread investments literacy and educate everyone to invest in digital asset classes.
