Notes forming part of the Consolidated Financial Statements for the year ended March 31, 2023

1 General information

The consolidated financial statements comprise financial statements of PayMate India Limited (formerly known as PayMate India Private Limited) (the Company/ Parent Company) and its subsidiaries (collectively, the Group) for the year ended 31 March 2023. PayMate India Limited (the "Company") is a public limited company domiciled in India and was incorporated on May 12, 2006 under the provisions of the Companies Act, 1956 applicable in India. Its registered and principal office of business is located at No.111, 1st Floor, "X Wing, Sundervilla S.V.Road, Santacruz (West) Mumbai Maharashtra 40054 India. The Company is primarily engaged in the business of providing comprehensive digital workflow used to payments which enable greater control and transparency along with better cash flows and an end to end reconciliation for a superior experience for Enterprise and SME in closed-loop supply chains.

2. Significant Accounting Policies

Significant accounting policies adopted by the group are as under:

2.01 Basis of Preparation of Consolidated Financial Statements

(a) Statement of Compliance with Ind AS

These Consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the "Act") read with the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

Accounting policies have been consistently applied to all the years presented unless otherwise stated.

(b) Basis of measurement

The consolidated financial statements have been prepared on a historical cost convention on accrual basis, except for the following material items that have been measured at fair value or revalved value as required by relevant Ind AS:-

- i) Certain financial assets and liabilities measured at fair value (refer accounting policy on financial instruments)
- ii) Share based payment transactions
- iii) Embedded derivative
- iv) Asset classified as held for sale

The group has prepared the consolidated financial statements on the basis that it will continue to operate as a going concern.

(c) Classification between Current and Non-current

The group presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

| Expected to be realised or intended to be sold or consumed in normal operating cycle

- ii. Held primarity for the purpose of trading
- III. Expected to be realised within twelve months after the reporting period, or
- iv. Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

A liability is current when:

- i. It is expected to be settled in normal operating cycle
- ii. It is held primarily for the purpose of trading
- iii. It is due to be settled within twelve months after the reporting period, or
- iv. There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The terms of the liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

The group classifies all other liabilities as non-current.

Deferred tax assets and trabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The group has identified twelve months as its operating cycle.

(d) Use of estimates

The preparation of consolidated financial statements in conformity with Ind AS requires the Management to make estimate and assumptions that affect the reported amount of assets and liabilities as at the Balance Sheet date, reported amount of revenue and expenses for the year and disclosures of contingent liabilities as at the Balance Sheet date. The estimates and assumptions used in the accompanying consolidated financial statements are based upon the Management's evaluation of the relevant facts and circumstances as at the date of the consolidated financial statements. Actual results could differ from these estimates.

Estimates and underlying assumptions are reviewed on a periodic basis, Revisions to accounting estimates, if any, are recognized in the year in which the estimates are revised and in any future years affected.

Refer Note 3-1 for detailed discussion on estimates and judgments

(CIN-1172200MH2006PLC205023)

dated Financial Statements for the year ended March 31, 2023

2.02 Basis of corsolidation

The consolidated financial statements comprise the financial statements of the group and its subsidiaries as at 31 March 2023.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- . The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- · The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights
- . The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group crases to control the subsidiary.

consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent group, i.e., year ended on 31 March. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

The group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, te and expenses. Intergroup transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.

Subsidiaries considered in the Consolidated Financial Statements:

PayMate Payment Services Provider LLC

PayMate Inc

PayMate FINTECH (PVT) LTD

PayMate INDIA SPC

PayMate PTE LTD

PayMate Fintech Company

PayMate Payment Services Sdn. Bhd.

Dunomo

2.03 Property, plant and equipment
Property, plant and equipment are stated at historical cost less depreciation. Freehold land is carried at historical cost. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to Statement of Profit and loss during the year in which they are incurred.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'.

Transition to Ind AS

On transition to find A5, the group has elected to continue with the carrying value of all of its property, plant and equipment recognized as at 1 April 2021 measured as per the Indian GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

Depreciation methods, estimated useful lives

The group depreciates property, plant and equipment over their estimated useful fives using the straight line method. The estimated useful lines of assets are as follows

Property, plant and equipment	Useful Life	
Leasehold improvement*	Lease period	
Computer & Software	3-5 Years	
Office Equipment	5 Years	
Furniture & Fittings	10 Years	

^{*} Leasehold improvements are amortized over the lease period, which corresponds with the useful lives of the assets.

Based on the technical experts assessment of useful life, certain items of property plant and equipment are being depreciated over useful lives different from the prescribed useful lives under Schedule II to the Companies Act, 2013. Management believes that such estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used. The residual values are not more than 5% of the original cost of the asset.

Depreciation on addition to property plant and equipment is provided on pro-rata basis from the date of acquisition. Depreciation on sale/deduction from property plant and equipment is provided up to the date preceding the date of sale, deduction as the case may be. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in Statement of Profit and Loss under 'Other Income'

Depreciation methods, useful lives and residual values are reviewed periodically at each financial year end and adjusted prospectively, as

(CIN: U72200MH2006PLC205023)

Notes forming part of the Consolidated Financial Statements for the year ended March 31, 2023

2.04 Intangible Assets

intengible assets are stated at acquisition cost, net of accumulated amortization.

(a) Patents, copyrights and other rights

Separately acquired patents and copyrights are shown at historical cost. They have a finite useful life and are subsequently carried at cost less accumulated amortisation and impairment losses.

(b) Research and development

Research expenditure and development expenditure that do not meet the criteria as stated below are recognised as an expense as incurred.

(c) Computer software Application

Costs associated with maintaining software programmes are recognised as an expense as incurred.

Development Cost that are directly attributable to the design and testing of identifiable and unique software products are recognised as intangible assets where cretria mentioned in point (b) above are met. Directly attributable costs that are capitalised as part of the software include employee costs and an appropriate portion of relevant overheads.

Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is available for use.

Transition to Ind AS

On transition to Ind AS, the group has elected to continue with the carrying value of all of its Intangible assets recognised as at 1 April 2021 measured as per the Indian GAAP and use that carrying value as the decreed cost of the Intangible assets.

The group amortized intangible assets over their estimated useful lives using the straight line method. The estimated useful lives of intangible assets are as follows:

Intangible	Useful life	
Patents	5 Years	
Application	5 Years	

Intangible assets with finite lives are assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

Intangible assets with indefinite useful lives are not amortised. Such intangible assets are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss, when the asset is derecognised.

2.05 Trade and other payables

These amounts represent liabilities for goods and services provided to the group prior to the end of the financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition/ as per agreed terms. Trade and other payables are presented as current liabilities seless nawment is not due within 12 months after the reporting period.

2.06 Foreign Currency Transactions

(a) Functional and presentation currency

Items included in the consolidated financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Indian rupee (INR), which is the group's functional and presentation currency.

(b) Transactions and balances

On Initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction. Gains/Losses arising out of fluctuation in foreign exchange rate between the transaction date and settlement date are recognised in the Statement of Profit and Loss.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date and the exchange differences are recognised in the Statement of Profit and Loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in time with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss, respectively).

(c) Group companies

The results and financial position of foreign operations frome of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities are translated at the closing rate at the date of that balance sheet
- · income and expenses are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions), and
- All resulting exchange differences are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are recognised in other comprehensive income. When a foreign operation is sold, the associated exchange differences are reclassified to profit or loss, as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

The group measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- ► In the principal market for the asset or liability, or
- ▶ In the absence of a principal market, in the most advantageous market for the asset or liability accessible to the group.

The principal or the most advantageous market must be accessible by the group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability. assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, nizing the use of relevant observable inputs and minimizing the use of unobservable inputs. The group's management determines the policies and procedures for fair value measurement such as derivative instrument

All assets and tiabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ▶ Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ► Level 2 Valuation techniques for which the lowest level input that is significant to the fair valuo measurement is directly or indirectly observable

 Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

2.08 Revenue from contract with customer

(a) Sale of Services

Revenue is measured based on the consideration specified in a contract with a customers net of variable consideration e.g. discounts, volume rebales, any payments made to a customer (unless the payment is for a distinct good or service received from the customer) and excludes amount collected on behalf of third parties. The Company recognises revenue when it transfers control over a product or service to the customer. Revenue is only recognised to the extent that is highly probable that a significant reversal will not occur.

Where the Company acts as an agent for setting goods or services, only the commission income is included within revenue. The specific revenue recognition criterial described below must also be met before revenue is recognised. Typically, the Company has a right to payment before or at the point that services are delivered. Cash received before the services are delivered is recognised as contract liability. The amount of consideration does not contain a significant financing component as payment terms are less than one year.

Service Fee from Merchants:

The Company earns service fee from merchanits and recognises such revenue when the control in services have been transferred by the Company (.e. as and when services have been provided by the Company. Such service fee is generally determined as a percentage of transaction value executed by the merchants

The Company derives its revenue primarily from the transaction Fees and related services and licensing income. The Company recognises revenue on transaction fees immediately upon completion of successful transaction and the collectability is reasonably assured

(CIN: U72200MH2006PLC205023)

Notes forming part of the Consolidated Financial Statements for the year ended March 31, 2023

(b) Other Operating Revenue

(ixinterest Income

For all debt instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liabflity. When calculating the effective interest rate, the group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in other income in the Statement of Profit and Loss.

(ii)Dividend Income

Dividend income is recorded when the right to receive payment is established.

(c) Contract Balances

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. A receivables represents the group's right to an amount of consideration that is unconditional.

Contract Liability

A contract tiability is the obligation to transfer goods or services to a customer for which the group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the group transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the group performs under the contract.

Trade Receivable

A trade receivable is recognised if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

2.09 Tax

Tax expense for the year, comprising current tax and deferred tax, are included in the determination of the net profit or loss for the year.

(a) Current income tax

Current tax assets and liabilities are measured at the amount expected to be recovered or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the year/period end date. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

(b) Deferred tax

Deferred income tax is provided in full, using the balance sheet approach, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in consolidated financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the year and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognized in Statement of Profit and Loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity, in this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(c) Minimum Alternative Tax

Minimum Alternative Tax (MAT) under the provisions of the Income-tax Act, 1961 ("the IT Act") is recognised as current tax in the statement of Profit and Loss. The credit availed under the IT Act in respect of MAT paid is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the period for which the MAT credit can be carried to ward for set-off against normal tax trability. MAT credit recognised as an asset is reviewed at each balance sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

The Taxation Laws (Amendment) Ordinance, 2019 ('Ordinance') was promulgated on September 20, 7019. The Ordinance has amended the Income Tax Art. 1961 and Finance Act, 2019 to inter-atia provide an option to domestic companies to pay income tax at a reduced tax of 22 percent plus applicable surchaing and cess with certain conditions to be met. The Company has opted to apply the provisions of section 1150AA from the Assessment year 2070-21 (year ended March 31, 2020) and accordingly, the Company has charged off the balance of MAT credit during the year ended March 31, 2020.

(CIN- 1372200MH2006PLC205023)

ng part of the Consolidated Financial Statements for the year ended March 31, 2023

The group's lease asset classes primarily consist of leases for buildings taken to conduct its business in the ordinary course. The group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the group assesses whether:

(i) the contract involves the use of an identified asset

(ii) the group has substantially all of the economic benefits from use of the asset through the period of the lease and

(iii) the group has the right to direct the use of the asset.

At the date of commencement of the lease, the group recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these shortterm and low value leases, the group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable

variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date

amounts expected to be payable by the group under residual value guarantees

- . the exercise price of a purchase option if the group is reasonably certain to exercise that option, and
- » payments of penalties for terminating the lease, if the lease term reflects the group exercising that option

Right-of-use assets are measured at cost comprising the follo

- · the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- · any initial direct costs

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

2.11 Impairment of non-financial assets

The group assesses at each year end whether there is any objective evidence that a non financial asset or a group of non financial assets is impaired. If any such indication exists, the group estimates the asset's recoverable amount and the amount of impairment loss

An impairment loss is calculated as the difference between an asset's carrying amount and recoverable amount. Losses are recognized in Statement of Profit and Loss and reflected in an allowance account. When the group considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through Statement of Profit and Loss.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in uso, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash in flows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

2.12 Provisions and contingent liabilities

Provisions are recognized when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance sheet date.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

The group records a provision for decommissioning costs, Decommissioning costs are provided at the present value of expected costs to settle the obligation using estimated cash flows and are recognized as part of the cost of the particular asset. The cash flows are discounted at a current pretax rate that reflects the risks specific to the decommissioning liability. The unwinding of the discount is expensed as incurred and recognized in the statement of profit and toss as a finance cost. The estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset.

If the group has a contract that is onerous, the present obligation under the contract is recognised and measured as a provision. However, before a separate provision for an onerous contract is established, the group recognises any impairment loss that has occurred on assets dedicated to that

An onerous contract is a contract under which the unavoidable costs (i.e., the costs that the group cannot avoid because it has the contract) of meeting the obligations under the contract exceed the economic benefits expected to be received under it. The unavoidable costs under a contract reflect the least net cost of exiting from the contract, which is the lower of the cost of fulfilling it and any compensation or penalties arising from failure to fulfill it. The cost of fulfilling a contract comprises the costs that relate directly to the contract (i.e. both incremental costs and an allocation of costs directly related to contract activities).

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be

PayMate India Limited (formerly known as PayMate India Private Limited)
(CIN: U7Z2DOM12006PLC205023)
Notes forming part of the Consolidated Financial Statements for the year ended March 31, 2023

2.13 Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise balance with banks, cash on hand, cheques/ draft on hand and short-term deposits net of bank overdraft with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purposes of the cash flow statement, cash and cash equivalents include balance with banks, cash on hand, cheques/ draft on hand and short-term deposits net of bank overdraft.

2.14 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(a) Financial assets

(i) Initial recognition and measurement

At initial recognition, financial asset is measured at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

(ii) Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

a) at amortized cost; or

b) at fair value through other comprehensive income; or

c) at fair value through profit or loss.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in finance income using the effective interest rate method (EIR).

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in Statement of Profit and Loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to Statement of Profit and Loss and recognized in other gains? (losses), interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss (FVTPL): Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss, interest facome from these financial assets is included in other income.

Equity instruments: All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL. For all other equity instruments, the group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The group makes such election on an instrument- by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the group decides to classify an equity instrument as at FVTDCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to PBL, even on sale of investment. However, the group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVIPL category are measured at fair value with all changes recognized in the profit and loss.

(CIN: U72200MH2006PLC205023)

Notes forming part of the Consolidated Financial Statements for the year ended March 31, 2023

(iti) Impairment of financial assets

In accordance with Ind AS 109, Financial Instruments, the group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on financial assets that are measured at amortized cost and FVOCI.

For recognition of impairment loss on financial assets and risk exposure, the group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If in subsequent years, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12 month ECL.

Life time ECLs are the expected credit losses resulting from all possible default events over the expected life of a fanancial instrument. The 12 month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the year end.

ECL is the difference between all contractual cash flows that are due to the group in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider all contractual terms of the financial instrument (including prepayment, extension etc.) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.

In general, it is presumed that credit risk has significantly increased since initial recognition if the payment is more than 30 days past due.

ECL impairment loss allowance (or reversal) recognized during the year is recognized as income/expense in the statement of profit and loss, in balance sheet ECL for financial assets measured at amortized cost is presented as an allowance, i.e. as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write off criteria, the group does not reduce impairment allowance from the gross carrying amount.

(iv) Derecognition of financial assets

A financial asset is derecognized only when

a) the rights to receive cash flows from the financial asset is transferred or

b) retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more rectoients.

Where the financial asset is transferred then in that case financial asset is derecognized only if substantially all risks and rewards of ownership of the financial asset is transferred. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

(b) Financial liabilities

(i) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss and at amortized cost, as All financial liabilities are recognized initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs.

(ii) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognized in the Statement of Profit and Loss.

Barrowines

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in Statement of Profit and Loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

<u>Bostowing Costs</u>: Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing costs exchange differences to the extent regarded as an adjustment to the borrowing costs.

lotes forming part of the Consolidated Financial Statements for the year ended March 31, 2023

(ill) Derecognition

A financial liability is derecognized when the obligation under the tiability is discharged or cancelled or expires. When an existing financial tiability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original tiability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss as finance costs.

An embedded derivative is a component of a hybrid (combined) instrument that also includes a non-derivative host contract - with the effect that some of the cash flows of the combined instrument vary in a way similar to a standalone derivative. Derivatives embedded in all other host contract are separated if the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host and are measured at fair value through profit or loss. Embedded derivatives closely related to the host contracts are not separated

Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss.

(d) Offsettine financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the group or the counterparty.

Convertible preference shares are separated into liability and equity components based on the terms of the contract.

On issuance of the convertible preference shares, the fair value of the liability portion of an optionally convertible preference shares is determined using a market interest rate for an equivalent non-convertible bonds. This amount is recorded as a liability on an amortised cost basis until extanguished on conversion or redemption of the bonds. The remainder of the proceeds is attributable to the equity portion of the compound instrument since it meets and AS 32. Financial instruments: Presentation, criteria for fixed to fixed classification. Transaction costs are deducted from equity, net of associated income tax. The carrying amount of the conversion option is not subsequently re-measured.

Transaction costs are apportioned between the liability and equity components of the convertible preference shares based on the allocation of proceeds to the liability and equity components when the instruments are initially recognized.

(a) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the year In which the employees render the related service are recognized in respect of employees' services up to the end of the year and are measured at the amounts expected to be paid when the (labilities are settled. The liabilities are presented as current employee benefit obligations in the balance

(b) Other long-term employee benefit obligations (i) Defined contribution plan

Provident Fund: Contribution towards provident fund is made to the regulatory authorities, where the group has no further obligations: Such benefits are classified as Defined Contribution Schemes as the group does not carry any further obligations, apart from the contributions made on a monthly basis which are charged to the Statement of Profit and Loss.

Employee's State insurance Scheme: Contribution towards employees' state insurance scheme is made to the regulatory authorities, where the group has no further obligations. Such benefits are classified as Defined Contribution Schemes as the group does not carry any further obligations, apart from the contributions made on a monthly basis which are charged to the Statement of Profit and Loss.

Defined benefit plans

Gratuity: The group provides for gratuity, a defined benefit plan (the 'Gratuity Plan') covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of ent, of an amount based on the respective employee's salary. The group's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/gains are recognized in the other comprehensive income in the year in which they arise.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated tuture cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The estimated future payments which are denominated in a currency other than INR, are discounted using market yields determined by reference to highestimated future payments which are denot quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance

Changes in the present value of the defined benefit obligation resulting from plan amendments or custailments are recognised immediately in profit Compensated Absences: Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the year are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end.

Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of the year end are treated as other long term employee benefits. The group's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/gains are recognized in the statement of profit and loss in the year in which they arise.

Leaves under define benefit plans can be encashed only on discontinuation of service by employee.

Notes forming part of the Consolidated Financial Statements for the year ended March 31, 2023

Employees (including senior executives) of the group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions). The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model.

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Companies' best estimate of the number of equity instruments that will ultimately vest. The statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met. Where awards include a market or non-vesting condition, the transactions are treated as vested irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

2.17 Contributed equity

Equity shares are classified as equity share capital.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

2.18 Provision for Dividend

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period. A corresponding amount is recognised directly in equity.

2.19 Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss attributable to equity holders of parent company (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period.

Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders of the parent company and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity

shares 2.20 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Board of directors monitors the operating results of all product segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit and loss and is measured consistently with profit and loss in the Summary Statements.

The operating segments have been identified on the basis of the nature of products/services. Further:

- f. Segment revenue includes sales and other income directly identifiable with / allocable to the segment including inter segment revenue. Expenses that are directly identifiable with / allocable to segments are considered for determining the segment result.
- #. Expenses which relate to the Group as a whole and not allocable to segments are included under unallocable expenditure.
- III. Income which relates to the Group as a whole and not allocable to segments is included in unaffocable income
- W. Segment results includes margins on inter-segment sales which are reduced in arriving at the profit before tax of the group.
- ment assets and liabilities include those directly identifiable with the respective segments. Unallocable assets and liabilities represent the assets and itabilities that relate to the Group as a whole and not allocable to any segment.
- vi. Segment revenue resulting from transactions with other business segments is accounted on the basis of transfer price agreed between the segments. Such transfer prices are either determined to yield a desired margin or agreed on a negotiated business.

2.21 Rounding off amounts

All amounts disclosed in consolidated financial statements and notes have been rounded off to the nearest thousands as per requirement of Schedule III of the Act, unless otherwise stated.

(CIN: U72200MH2006PLC205023)

Notes forming part of the Consolidated Financial Statements for the year ended March 31, 2023

3 Significant accounting judgments, estimates and assumptions

The preparation of consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the year end date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the group. Such changes are reflected in the assumptions when they occur.

(a) Share-based payments

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 33,

(b) Taxes

Deferred tax assets are recognized for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

The group neither have any taxable temporary difference nor any tax planning opportunities available that could partly support the recognition of these losses as deferred tax assets. On this basis, the group has determined that it cannot recognize deferred tax assets on the tax losses carried forward except for the unabsorbed depreciation. Refer Note 32.

(c) Defined benefit plans (gratuity benefits and compensated absences)

The cost of the defined benefit plans such as gratuity and compensated absences are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate. future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each year end.

The principal assumptions are the discount and salary growth rate. The discount rate is based upon the market yields available on government bonds at the accounting date with a term that matches that of Habilities. Salary increase rate takes into account of inflation, seniority, promotion and other relevant factors on long term basis. For details refer Note 28.

4.1 Standards (Including amendments) Issued but not yet effective
The Mimstry of Corporate Affairs ("MCA") has notified Companies (Indian Accounting Standard) Amendment Rules, 2023 dated March 31, 2023 to amend
(i) <u>Disclosure of Accounting Policies - Amendment to Ind AS 1 Presentation of financial statements</u>

- (ii) Definition of Accounting Estimates Amendments to Ind AS 8 Accounting policies, changes in accounting estimates and errors
- (iii) Deferred Tax related to Assets and Liabilities arising from a Single Transaction Amendments to Ind AS 12 Income taxes
- (v) The other amendments to Ind A5 notified by these rules are primarily in the nature of clarifications.

4.2 Standards that became effective during the year
The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standard) Amendment Rules 2022 dated March 23, 2022 to amend the following

- (i) Property, Plant and Equipment: Proceeds Before intended Use- Amendment to Ind AS 16
- (ii) Ind AS 109 Financial Instruments Fees in the '10 per cent' test for derecognition of financial liability
- (iii) Taxation in fair value measurements Amendments to Ind AS 41

4, Right of use assets and Lease Liabilities

The company has lease contracts for office units. The company's obligations under its leases are secured by the lessor's title to the leased assets. There are several lease contracts that include extension and termination options.

The company has adopted Ind AS 116, effective annual reporting period beginning April 1, 2018 and applied the standard to its leases, under modified retrospective transition method.

The company has elected not to apply the requirements of Ind AS 116 "Leases" to short-term leases of all assets that have a lease term of 17 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term except inflation adjustment.

27 Disclosures required under Section 22 of the Micro, Small and Medium Enterprises Development Act, 2006

Particulars	As at March 31, 2023	As at March 31, 2022
The amounts remaining unpaid to micro and small supplies as at end of the period / year		
- Principal - Interest	0.14	0.08
The amount of interest paid by the buyer in terms of Section 16 of the Micro, Small and Medium Enterprises Development Act, 2006 (27 of 2006), along with the amount of the payment made to the supplier beyond the appointed day during each accounting year/period:		•
The amount of interest due and payable for the period of delay in making payment (which has been paid but beyond the appointed day during the year) but without adding the interest specified under the MSMED Act;		
The amount of interest accrued and remaining unpaid at the end of each accounting year / period; and	•	-
The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues		
as above are actually paid to the small enterprises for the purpose of disallowance as a deductible expenditure under Section 23 of the MSMED Act.		

Dues to micro and small enterprises have been determined to the extent such parties have been identified on the basis of information collected by the Management. This has been relied upon by the auditors.

PayMate India Limited (formerly known as PayMate India Private Limited) (CIN: U72200MH2006PLC205023) Notes to Consolidated Financial Statement for the year ended March 31,2023 (All amounts are INR. in Millions, except for share data and unless otherwise stated)

28 Employee benefit plans

28.1 <u>Defined contribution plans - provident fund</u>

The Company makes Provident Fund scheme contributions to defined contribution plans for qualifying employees. Under the Schemes, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. The Company recognised the following contributions in the Statement of profit and loss.

Particulars	Year ended March	Year ended March
	31, 2023	31, 2022
Provident fund	7.59	5.21

28.2 Defined benefit plan - gratuity

The Company provides for Gratuity for employees in India as per the Payment of Gratuity Act. 1972. Employees who are in continuous service for a period of 5 years are eligible for Gratuity. The amount of Gratuity payable on retirement/ termination is the employee's last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service or part thereof in excess of six months, restricted to a sum of Rs. 20 lakhs.

The Group does not fund the liability.

This defined benefit plans expose the Group to actuarial risks, such as longevity risk, interest rate risk and market (investment) risk.

The liability for the Defined Benefit Plan is provided on the basis of a valuation, using the Projected Unit Credit Method, as at the Balance Sheet date, carried out by an independent actuar

	As at March 31, 2023	As at March 31, 2022
Current and Non Current Liability portion		
Particulars		
Current Liability	1.34	3.41 11.98
Non Current Asset/ (Liability)	14,60	
Het Asset/(Liability)	15.93	15.40
Net asset / (liability) recognised in the Balance Sheet		
Present value of defined benefit obligation	15,93	15,40
Fair value of plan assets	15.73	13.40
Funded status [Surplus / (Deficit)]	(15.93)	(15,40)
Net asset / (liability) recognised in the Balance Sheet	(15.93)	(15.40)
Composition of the plan assets is as follows:	115.552	(13.40)
Discount rate	7.30%	6 700
Attrition Rate	9.00%	6.70%
Expected return on plan assets		15.24%
Salary escalation	NA	NA
The second state of the se	8.00%	10.00%

The discount rate is based on the prevailing market yields of Government of India securities as at the Balance Sheet date for the estimated term of the obligations.

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

Gratuity Plan	As at March 31, 2023	As at March 31, 2022
Estimate value of obligation if discount rate higher by 1%	(1.07)	(0.74)
Estimated value of obligation if discount rate is lower by 1%	1.21	0.81
Estimate value of obligation if salary growth rate is higher by 1%	0.60	0.44
Estimate value of obligation if salary growth rate is lower by 1%	(0.71)	(0.38)
Estimate value of obligation if attrition rate is higher by 1%	0,17	(0.01)
Estimate value of obligation if attrition rate is lower by 1%	(0.20)	0.01

These sensitivities have been calculated to show the movement in defined benefit obligation in isolation and assuming there are no other changes in market conditions at the accounting date. There have been no changes from the previous periods in the methods and assumptions used in preparing the sensitivity analysis

31 Earnings per equity share

Basic earnings per share amounts is calculated by dividing the profit/(loss) for the period / year attributable to equity holders by the weighted average number of equity shares outstanding during the period / year. Diluted earnings per share amounts is calculated by dividing the profit/(Loss) attributable to equity holders (after adjusting for dividend on the convertible preference shares) by the weighted average number of equity shares outstanding during the period / year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

Particulars	Year ended March	Year ended March
Earnings per equity share	31, 2023	31, 2022
Loss attributable to equity shareholders Original number of equity shares (post share split)*	(557.23)	(577.37
Add: Impact of bonus issue	3,80,708 5,71,06,182	3,58,973 5,38,46,022

ffect of dilutive equivalent Compulsory convertible preference shares	1,19,68,213 5,02,49,780	93,87,049 4,87,14,247
Veighted average number of equity shares for dilutive EPS (Nos.) ar value per equity share (₹)	11,97,04,883	11,23,06,291
ar value per equity snare (₹) [arning/(loss) per share - Basic (₹)	1.00	1.00
arning/(loss) per share - Diluted (₹)#	(9.69)	(10.65)

*The Company on December 18, 2021, has split the Rs. 10 equity share into 10 shares of Re. 1 each. Accordingly, the earnings per share has been adjusted for subdivision of shares for the current and previous years presented in accordance with the requirements of Indian Accounting Standard (Ind AS) 33 - Earnings per share.

#The conversion of above mentioned potential equity shares would decrease loss per share from continuing ordinary activities, these are anti-dilutive in nature and thus the effects of anti-dilutive potential equity shares are not considered in calculating diluted earning per share.

32 Income Tax:

	Year ended i	Warch 31, 2023	Year ended March 31, 2022	
Particulars	Statement of profit and loss	Other comprehensive income	Statement of profit and loss	Other comprehensive income
Current Tax				meome
Deferred tax		2		
Income tax expense				-

As the company is incurring Losses, the provision for income tax does not arise.

Deferred Tax

Deferred Tax The Company has unabsorbed depreciation and unused tax losses at the end of the year. The net deferred tax asset has not been recognised on such losses and unabsorbed depreciation, as the probable taxable profits for the entity are low before the unused tax losses or unabsorbed depreciation expire and also on consideration of prudence. The Company has not created deferred tax assets on the following.

Particulars Accumulated was book and description	As at March 31, 2023	As at March 31, 2022
Accumulated unabsorbed depreciation loss	121.15	107.66
Accumulated unabsorbed business loss	820.28	593.80

2029-30	243,80	110,114

PayMate India Limited (formerly known as PayMate India Private Limited) (CIN: U72200MH2006PLC205023)

Notes to Consolidated Financial Statement for the year ended March 31,2023

(All amounts are INR. in Millions, except for share data and unless otherwise stated)

33 Employee Stock Option plan

The stock compensation expense recognised for employee services received during the year ended March 31, 2023 and year ended March 31, 2022 were ₹ 163.43 Million and ₹ 243.84 Million respectively.

ESOP scheme 2014

The Board of Directors of the Parent Company at its meeting held on December 18, 2021, ratified the PayMate Employees Stock Option Plan-I 2014 ("ESOP Plan"). At the said meeting, the Board authorised the Compensation Committee for the superintendence of the ESOP Plan. ESOP is the primary arrangement under which shared plan service incentives are provided to certain specified employees of the Company. Employees covered under Stock Option Plans are granted an option to purchase shares of the Company at the respective exercise prices, subject to requirements of vesting conditions. These options generally vest in tranches over a period of one to five years from the date of grant. Upon vesting, the employees can acquire one equity share for every option. The normal Excise Period is 5 years from the date the options become vested options or such period as extended by the Compensation committee.

The fair value of equity-settled award is estimated on the date of grant with the following assumptions:

Particulars	ESOP Plan	ESOP Plan	ESOP Plan	ESOP Plan	ESOP Plan
Grant Date	19-02-2022 (Vest 2)	19-02-2022 (Vest 1)	20-1-2022	24-11-2021 (Vest 2)	24-11-2021 (Vest 1)
Weighted average share price⁴ (₹)	105.35	105.35	105.35	52.66	52.66
Exercise price (₹)	1	1	1	1	1
Expected volatility (%)	38.63%	41.35%	38,79%	37.03%	39.36%
Expected life of the option (years)	4.74	3.74	3.65	4.5	3.5
Expected dividends (%)	0.00%	0.00%	0.00%	0.00%	0.00%
Risk-free Interest rate (%)	5.71%	5.37%	5.37%	5,55%	5.18%
Weighted average fair value as on grant date' (₹)	104.59	104.53	104.53	52.66	52.66

^{*}The aforementioned shares are post subdivision of equity shares (refer note 13).

A summary of the general terms of grants under stock option plan

Name of Plan	Number of options	Number of options
	reserved under the plan as at March 34, 2023	reserved under the plan as at March 31, 2022
PayMate Employees Stock Option Plan-I 2014*	2,41,60,000	2,41,60,000

The aforementioned shares are post subdivision of equity shares (refer note 13).

Particulars	As at March 31, 2023	As at March 31, 2022
Outstanding at the beginning of the period /year	1,12,70,640	1,03,66,150
Granted during the period/year	9,22,610	41,82,700
Exercised during the period/year		31,30,230
Modification during the period/year		
Expired during the period/year		
Forfeited during the period/year		1,47,980
Outstanding at the end of the period/year	1,21,93,250	1,12,70,640
Exercisable at the end of the period/year	1,07,42,140	64,22,030

[&]quot;The aforementioned shares are post subdivision of equity shares (refer note 13).

The following table summarises information about outstanding stock option

Particulars	As at March 31, 2023	As at March 31, 2022
Number of options"	1,21,93,250	1,12,70,640
Weighted average remaining life (months)	4	4

^{*}The aforementioned shares are post subdivision of equity shares (refer note 13).

The fair value of the awards are estimated using the Black-Scholes Model for time and non-market performancebased options,

The inputs to the model include the share price at date of grant, exercise price, expected volatility, expected dividends, expected term and the risk free rate of interest.

PayMate India Limited (formerly known as PayMate India Private Limited) (CIN: U72200MH2006PLC205023)
Notes to Consolidated Financial Statement for the year ended March 31,2023

(All amounts are INR. in Millions, except for share data and unless otherwise stated)

34 Financial Instruments

The carrying value and fair value of financial instruments by categories as at March 31, 2023 & March 31, 2022 is as follows:

Particulars	Amorti	sed cost
	As at March	As at March
Plana de Carreta	31, 2023	31, 2022
Financial assets		
Investment		
Trade receivable	5.10	57.40
Cash and cash equivalents	7.29	15.85
Other bank balances	3.25	7.34
Loans		
Other financial assets	209.84	228.61
Total assets	225,48	309.20
Financial liabilities		
Borrowings	35.00	_
Lease liabilities	10.28	15.33
Trade payables	198.18	3.61
Total liabilities	243,46	18.94

The management assessed that fair value of cash and short-term deposits, trade receivables, trade payables, and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

Level 1 - Quoted prices (unadjusted) in active markets for

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

There have been no transfers among Level 1, Level 2 and Level 3 during the year.

B. Financial risk management

The Group activities expose it to market risk, liquidity risk and credit risk. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk.

Risk	Exposure	Measuremen	Management
Credit risk	Trade receivables, security deposits.	Ageing analysis. Credit score of customers/entities.	Monitoring the credit limits of customers and obtaining security deposits
Liquidity risk	Borrowings	Cash flow forecasts managed by finance team under the overview of Senior Management.	Working capital management by Senior Management, The excess Ifquidity is channelised

The Group's risk management is carried out by the Senior Management under policies approved by the Board of Directors. The Board of Directors provides guiding principles for overall risk management, as well as policies covering specific areas such as credit risk and liquidity risk.

Risk management framework

The Group's board of directors have overall responsibility for the Group's risk management framework. The board of directors are responsible for developing and monitoring the Group's risk management policies. The board of directors monitors the compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group.

The Group's risk management policies are to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investment securities. Credit risk arises from cash held with banks and financial institutions, as well as credit exposure to clients, including outstanding accounts receivable. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Group assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment.

The following table gives details in respect of revenues generated from top customer and top 5 customers:

Particulars	Year ended March 31, 2023	Year ended March 31, 2022
Revenue from top customer	1,504.02	2,276.30
Revenue from top 5 customers (other than above customer)	6,149.69	5,139.54

One customer accounted for more than 11% of the revenue for the year ended March 31, 2023. One customer accounted for more than 19% of the revenue for the year March 31, 2022.

Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The table below provides details regarding the undiscounted contractual maturities of significant financial liabilities.

As at March 31, 2023

	Carrying	Less than 1	1-5 years	More than 5	Total	
	value	year		years		
Lease liabilities	10.28	5.64	4.64	7	10.28	
Short-term borrowings	35.00	35.00		*	35.00	
Trade payables	198,18	186,97	11.21	*	198.19	
Total	243.46	227.61	15.86	-	243,47	

As at March 31, 2022

	Carrying	Less than 1	1-5 years	More than 5	Total
	value	year		years	
Lease liabilities	15.33	5.05	10.28		15.33
Short-term borrowings					
Trade payables	3.61	0.08	3.53	4	3.61
Total	18.94	5.14	13.81	-	18,94

Foreign Currency risk

The Group's exchange risk arises from its foreign operations, foreign currency revenues and expenses, (primarily in U.S. dollars). A significant portion of the Group's revenues are in these foreign currencies, while a significant portion of its costs are in Indian rupees. As a result, if the value of the Indian rupee appreciates relative to these foreign currencies, the Group's revenues measured in rupees may decrease. The exchange rate between the Indian rupee and these foreign currencies has changed substantially in recent periods and may continue to fluctuate substantially in the future. The Group's management meets on a periodic basis to formulate the strategy for foreign currency risk management.

Consequently, the Group management believes that the payables in foreign currency and its assets in foreign currency shall mitigate the foreign currency risk mutually to some extent

The following table presents foreign currency risk from non-derivative financial instruments as of March 31, 2023 & March 31, 2022.

Particulars	As at Amount in 1		INR (In MM)
Assets - Trade receivables			
	31-Mar-23	12,605.64	1.04
	31-Mar-22	8,288,83	0.63

Foreign currency sensitivity analysis

The following table details the Group's sensitivity to a 5% increase and decrease in INR against the USD, 5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 5% change in foreign currency rates. A negative number below indicates an decrease in profit or equity where the INR strengthens 5% against the relevant currency. For a 5% weakening of the INR against the relevant currency, there would be a comparable impact on the profit or equity, and the balances below would be positive.

		Year ended March 31, 2022
Impact on profit or (loss) for the period / year in case on 5% strengthening of INR	(0.05)	(0.03)
Impact on profit or (loss) for the period / year in case on 5% weakening of INR	0.05	0.03

Capital management

The Group's objective when managing capital is to safeguard its ability to continue as going concern so that the Group is able to provide minimum return to share holders and benefit for other stakeholders; and maintain an optimal capital structure to reduce the cost of capital.

The Group maintains its financial framework to support the pursuit of value growth for shareholders, which ensuring a secure financial base. In order to maintain or adjust the capital structure, the Group may vary the distribution of dividends to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The capital structure of the Group consists of debt and total equity of the Group.

The Group's management review the capital structure of the Group on quarterly basis. As part of the review, the management considers the cost of capital and the risks associated with each class of capital requirements and maintenance of adequate liquidity.

Gearing Ratio (Net Debt to Equity Ratio)

Particulars	As	at	
	As at March	As at March

PayMate India Limited (formerly known as PayMate India Private Limited)

(CIN: U72200MH2006PLC205023)

Notes to Consolidated Financial Statement for the year ended March 31,2023

(All amounts are INR. in Millions, except for share data and unless otherwise stated)

50 Ratios as per the Schedule III requirements

a) Current Ratio (Current Assets divided by Current Liabilities)

Particulars	Year ended March 31, 2023	Year ended March 31, 2022	
Current Assets (A)	564.83	549.00	
Current Liabilities (B)	405.09	116,33	
Ratio (C=A/B)	1.39	4.72	
% Change from previous period / year	-70%		

Note on Variance;

The decrease in current ratio from March 31, 2022 to March 31, 2023 was primarily on account higher trade payable as of 31st March, 2023.

b) Dobt Friedry satin (Total dobt divided by Total equity where total dobt refers to sum of surrent 5 per surrent horsessingly

Particulars .	Year ended March 31, 2023	Year ended March 31, 2022
Total debt (A)	35.00	(*)
Total equity (B)	172,71	463,6
Ratio (C=A/B)	0,20	
% Change from previous period / year	0%	

c) Return on Equity Ratio / Return on Investment Ratio (Net profit after tax divided by Total Equity)

Particulars	Year ended March 31, 2023	Year ended March 31, 2022	
Net profit after tax (A)	(557.23)	(577.37	
Total equity (B)	172.71	463.64	
Ratio (C=A/B)	-322.64%	-124.53%	
% Change from previous period / year	-159%		

d) Trade Receivables turnover ratio = Credit Sales divided by Closing trade receivables

Particulars	Year ended March 31, 2023 Year ended March 31, 2	
Revenue from Operations (A)	13,501.13	12,088.90
Average Trade Receivables (B)	31.25	10.69
Ratio (C=A/B)	432,04	325,91
% Change from previous period / year	33%	

Note on Variance:

The increase in Trade Receivables turnover ratio from March 31, 2022 to March 31, 2023 was primarily on account higher Revenue during the year 31st March, 2023.

e) Trade payables turnover ratio (Credit purchases divided by Average trade payables)

Particulars	Year ended March 31, 2023	Year ended March 31, 2022	
Credit Purchases (A)	13,389.61	12,074.79	
Average Trade Payables (B)	100.79	13.33	
Ratio (C=A/B)	132.85	905.56	
% Change from previous period / year	-85%		

Note on Variance:

The decrease in Trade Payables turnover ratio from March 31, 2022 to March 31, 2023 was primarily on account higher trade payable as of 31st March, 2023.

f) Net capital Turnover Ratio (Revenue divided by Net Working capital (current assets - current liabilities)

INDEPENDENT AUDITOR'S REPORT

To the Members of PayMate India Limited (formerly known as PayMate India Private Limited)

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of PayMate India Limited (hereinafter referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at March 31, 2023, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and notes to the Consolidated Financial Statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on consideration of reports of other auditors on separate financial statements and on the other financial information of subsidiaries, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of their consolidated state of affairs of the Group as at March 31, 2023, of consolidated loss and other comprehensive income, consolidated changes in equity and its consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group, in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by Institute of Chartered Accountant of India ("ICAI"), and the relevant provisions of the Act and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained and on consideration of audit reports of other auditors referred to in paragraph (a) of the "Other Matters" section below, is sufficient and appropriate to provide a basis for our opinion.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the Director's report but does not include the consolidated financial statements and our auditor's report thereon. The Director's report has not been made available to us.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing ("SAs") will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

We give in "Annexure A" a detailed description of Auditor's responsibilities for Audit of the Consolidated Financial Statements.

Other Matters

a. We did not audit the financial statements of 4 foreign subsidiaries, whose financial statements reflect total assets of INR 54.22 million as at March 31, 2023, total revenues of INR 5.68 million and net cash flows amounting to INR (7.86) million for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors.

All these subsidiaries are located outside India whose financial statements have been prepared in accordance with accounting principles generally accepted in their respective countries which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Holding Company's management has converted the financial statements of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Holding Company's management. Our opinion in so far as it relates to the balances and affairs of such subsidiaries located outside India is based on the report of other auditors and the conversion adjustments prepared by the management of the Holding Company and audited by us. According to the information and explanations given to us by the management of the Holding Company, these financial statements are not material to the Group.

b. We did not audit the financial statements of 4 foreign subsidiaries, whose financial statements reflect total assets of INR 0.00 million as at March 31, 2023, total revenues of INR 0.00 and net cash flows amounting to INR 0.00 million for the year ended on that date, as considered in the consolidated financial statements. These financial statements are unaudited and have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-section (3) of Section 143 of the Act in so far as it relates to the aforesaid subsidiaries, is based solely on such unaudited financial statements. In our opinion and according to the information and explanations given to us by the Management, these financial statements are not material to the Group.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements certified by the Management.

Report on Other Legal and Regulatory Requirements

- 1. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - b. In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books.
 - c. The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
 - d. In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act.

Chartered Accountants

- e. On the basis of the written representations received from the directors of the Holding Company as on March 31, 2023 taken on record by the Board of Directors of the Holding Company, none of the directors of the Holding company are disqualified as on March 31, 2023 from being appointed as a director in terms of Section 164 (2) of the Act.
- f. With respect to the adequacy of internal financial controls with reference to consolidated financial statements of the Group and the operating effectiveness of such controls, refer to our separate report in "Annexure B".
- g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group Refer Note 26 to the consolidated financial statements.
 - ii. The Group did not have any material foreseeable losses on long-term contracts including derivative contracts.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company.

iv.

(1) Under Rule 11(e)(i)

The Management of the Holding Company have represented to us that, to the best of their knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or any of such subsidiaries to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company or any of such subsidiaries ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(2) Under Rule 11(e)(ii)

The Management of the Holding Company have represented to us that, to the best of their knowledge and belief, no funds have been received by the Holding Company or any of such subsidiary from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or any of such subsidiaries shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(3) Under Rule 11(e)(iii)

Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us and according to the information and explanations provided to us by the Management of the Holding company in this regard nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) as provided under (1) and (2) above, contain any material mis-statement.

Chartered Accountants

- v. Under Rule 11(f)
 The Company has neither declared nor paid any dividend during the year.
- vi. As proviso to rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable for the Holding Company, and its subsidiary companies only w.e.f. April 1, 2023, reporting under this clause is not applicable.
- 2. In our opinion, according to information, explanations given to us, the remuneration paid by the Holding Company to its directors is in compliance with the provisions of Section 197 of the Act and the rules thereunder. Since the subsidiaries are incorporated outside India, the provisions of Section 197 are not applicable.
- 3. According to the information and explanations given to us and based on the CARO report issued by us for the Holding Company, we report that there are no qualification/adverse remarks. There are no subsidiaries included in the consolidated financial statements of the Company to which reporting under CARO is applicable.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT ON EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF PAYMATE INDIA LIMITED (FORMERLY KNOWN AS PAYMATE INDIA PRIVATE LIMITED)

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we
 are also responsible for expressing our opinion on whether the company has adequate internal
 financial controls with reference to consolidated financial statements in place and the
 operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the
 entities or business activities within the Group to express an opinion on the consolidated
 financial statements. We are responsible for the direction, supervision and performance of
 the audit of the financial statements of such entities included in the consolidated financial
 statements of which we are the independent auditors. For the other entities included in the
 consolidated financial statements, which have been audited by other auditors, such other
 auditors remain responsible for the direction, supervision and performance of the audits
 carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF PAYMATE INDIA LIMITED (FORMERLY KNOWN AS PAYMATE INDIA PRIVATE LIMITED) FOR THE YEAR ENDED MARCH 31, 2023

[Referred to in paragraph (f) under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditors' Report of even date to the Members of PayMate India Limited on the Consolidated Financial Statements for the year ended 2023

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

Opinion

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2023, we have audited the internal financial controls reference to consolidated financial statements of PayMate India Limited (hereinafter referred to as "the Holding Company").

In our opinion, and to the best of our information and according to the explanations given to us, the Holding Company, has, in all material respects, an adequate internal financial controls with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at March 31, 2023, based on the internal financial controls with reference to consolidated financial statements criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note"). issued by the Institute of Chartered Accountants of India ("the ICAI").

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Holding company are responsible for establishing and maintaining internal financial controls based on the internal control with reference to consolidated financial statements criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note issued by the ICAI. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements of the Holding company, based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the Standards on Auditing prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Chartered Accountants

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements of the Holding Company.

Meaning of Internal Financial Controls with Reference to Consolidated Financial Statements

A company's internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial control with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Chartered Accountants

Other Matter

Reporting under clause (i) of sub section 3 of Section 143 of the Act, in respect of the adequacy of the internal financial controls, is not applicable to all the subsidiaries as they are incorporated outside India.
