

The very thought of taking the steps toward the purchase of a new home is daunting to even some of the most savvy of buyers. We had some experience but wanted to make sure we were careful in our approach as this would be our forever home. Having Brittney on our side gave us the confidence we needed to find the right home, at the right price, with forever in mind. The word forever made the endeavor all the more important and special. We couldn't have asked for a more knowledgeable and genuinely caring advocate to have in our corner helping us navigate the whirlwind world that real estate can often be. Brittney offered an invaluable wealth of knowledge and helped make the path even brighter that led us to our dream home. We didn't just come away with the perfect home for our family. We came away with a friend who helped make it possible. We truly believe God has the power to bring people into our lives that only He can. Brittney was that person we know He meant to take this journey with us. We are truly "home at last" and Brittney with The Advocate Group helped make that possible.

Grateful,  
Leah & Victor
