Deliveries

The process is basically the
Same as in Pick Up
Selecting Enroute Loads:

Select the Load Number

The screenshot shows the 'Enroute Loads' section with a list of loads. The first load, with ID 469975, is highlighted with a green circle. The table has columns: Priority, ID, Stops, Units, and Distance.

Priority	ID	Stops	Units	Distance
5	469975	3	2	188
		Port Newark, NJ -> Worcester, MA		
5	474418	2	2	634
		Baltimore, MD -> Grand Rapids, MI		
5	474471	2	1	43
		Baltimore, MD -> Arlington, VA		
5	474472	2	1	61
		Baltimore, MD -> Chantilly, VA		

Select Inspect

The screenshot shows the 'Load Id: 469975' details page. It includes fields for 'Dispatch: Ops, Sys', 'Comments:', 'Status: In-Route', and 'Add / Remove Vehicles | Drop Enroute'. Below is a table with 3 stops. The 'Inspect' button for the second stop is highlighted with a green circle.

© 2005-2015, CargoTel Incorporated. All rights reserved.

Select from Menu Area of
Vehicle where the
Damage is located

The screenshot shows the 'Connection Manager' app interface. At the top, it displays 'Online' status, 'Test Driver (drivertest)', 'Truck: Test12', and 'New Messages: (0)'. Below this is a 'DONE' button. The main menu consists of several grey buttons with white text: 'Driver Side', 'Front', 'Passenger Side', 'Rear', 'Other', and 'Interior'. At the bottom, there is another 'DONE' button and a copyright notice: '© 2005-2015, CargoTel Incorporated. All rights reserved.'

Select the Location of the
Damage

This screenshot shows the same 'Connection Manager' app, but with the 'Driver Side' menu item selected. Below the 'Driver Side' header, there is a grid of buttons for specific damage locations. The buttons are arranged in two columns and eight rows, with the last button centered at the bottom. The buttons are: '10-Door-Left Front', '11-Door-Left Rear', '14-Fender-Left Front', '15-Quarter Panel/Pick', '30-Mirror-Outside Left', '35-Rocker Panel / Out', '38-Running Board / St', '48-Trim Panel-Front L', '70-center post left', '71-corner post', '72-Left Front Tire', '73-Left Front Wheel / F', '74-Left Rear Tire', '75-Left Rear Wheel / R', and '82-Fender-Rear Left'.

Then click on the

Search & Update

In the Loads we have the
Search/Update Panel.
Here you can Search by Vin or
Load Number.

Clicking on “Update Loads”
Allows Driver to force update
from system which is not every
minute.

The screenshot displays the 'Connection Manager' application interface. At the top, it shows 'Online' status and an 'Invert' button. Below this, the user is identified as 'Driver Test (testdriver)' and the vehicle as 'Truck: Test Truck'. A 'Loads' section is visible with a dropdown arrow. The 'Search / Update' panel is active, featuring two search input fields: 'VIN' and 'ID'. Each field has a 'Go' button and a 'Clear' button. Below the search fields, there is an 'Update Loads' button. At the bottom, a list of load categories is shown with expandable arrows and counts: 'Today's Loads (8)', 'Future Loads (0)', 'Enroute Loads (4)', and 'Delivered Loads (0)'.

Utilities

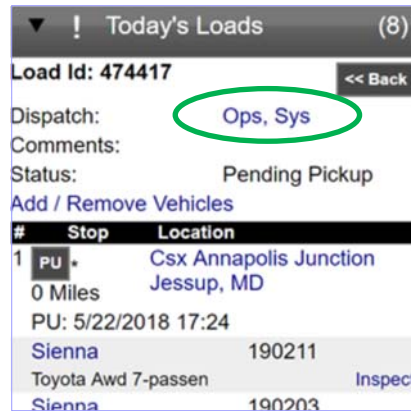

In Utilities is where Driver captures and save his Signature. If using Printer can check what is queued, can also check to see if there any unsent Operations still to send from Pick Up or Delivery

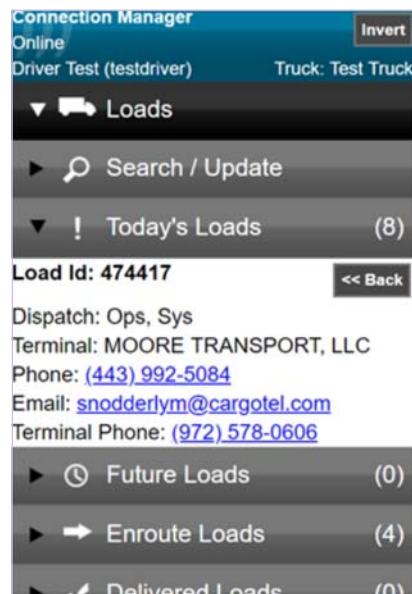

Other Tips

Clicking on Dispatch Rep link

Allows Driver to view
Dispatcher information

If a Vehicle is missing or damaged and will not be Transported, Driver can use the Add / Remove option
