

**AQUATIC RESTORATIONS**

# HOPPERS

Hoppers are available in various lengths and are utilised to store and transport materials along the watercourse.

Their design makes them especially practical for use in shallow and narrow watercourses, providing efficient transportation of materials even in constrained environments.

- VARIOUS SIZES 30ft – 40ft
- CARRIES 15 – 25 TONNE
- BALLAST TANKS FITTED FRONT AND BANK TO SUPPORT ADDITIONAL WEIGHT
- STACKABLE TO REDUCE TRANSPORT COSTS
