

AQUATIC RESTORATIONS

POWERED EXCAVATOR BOATS

Powered excavator boats offer versatility by accommodating both materials and heavy machinery when required along the watercourse. These boats enable the use of machinery, such as diggers, to operate seamlessly over the length of the vessel. Spud legs are utilized to stabilise the boat, ensuring safe and efficient operations even in challenging conditions.

- 40 FT
- LARGE WORKING PLATFORM
- CARRIES UP TO 2.5 TONNES
- 2M SPUD LEGS TO STABILISE FOR USE WITH HEAVY MACHINERY
