

AQUATIC RESTORATIONS

TRUXORS

AMPHIBIOUS TRUCKS

The Truxor's exceptional maneuverability on land and its ability to transition seamlessly into water make it an incredibly desirable machine for marine work. Its versatility allows for efficient operations both on land and in aquatic environments, making it a valuable asset for various marine projects.

1 **Echo-Friendly**

The Truxor is powered by eco-friendly biodegradable oil and its compact design reduces harm to the surrounding environment.

2 **Versatile**

We can supply a large selection of attachments for the Truxor that aid in efficient silt and vegetation removal.
