

Manual IV Bag Visual Inspection System (IVBIS-MA)

Improve your IV BAG manual inspection process with the enhanced inspection system from AWS Bio-Pharma Technologies.

Designed, assembled, & supported in the USA!!

***U.S. Patented #11,650,163 B2
International patents pending***

DESIGN FEATURES:

- ⇒ Provides equal or better inspection results compared to typical manual inspection (subject to your current SOPs).
- ⇒ Minimized eye strain due to enhanced, patented lighting technology.
- ⇒ Vertical inspection of IV bags allows better manual inspection and reduces repetitive motions by inspectors

Manual IV Bag Visual Inspection System (IVBIS-MA)

- ◆ Fully adjustable light levels up to 9,000 LUX.
- ◆ The touchpad interface is accessible through the User Control Panel or via the app on a Windows PC, Android, or iPhone using WiFi configuration. The app allows users to adjust parameter settings, including LUX value and inspection time.

- * Ease of operation
- * Minimizes eye strain
- * System handles 50ml-750ml IV bags
- * Specialized LED lighting is controlled to below 0.05% variation.
- * Enhanced inspection capability
- * Portable
- * Particle & cosmetic IV bag inspection

Due to the above features, the opportunity exists to enhance inspector through-put while reducing eye strain, based on current SOPs.
