Discover the Amazon: Paramotor Expedition 2025

Deep Into The Jungle: Glide Over Hidden Sandbanks,
Endless Waterways, And Amazonian Sunsets

Welcome to the Ultimate Amazon Paramotor Expedition!

The Boat

Aboard our expedition base, the Anna Clara Yatch, you'll enjoy the comforts of private cabins complete with bathrooms and AC. The boat also boasts a bar, a restaurant serving delicious local dishes, and a lounge perfect for unwinding after a day of adventure.

We also offer starlink wifi connection at all times, a convenience that is nice to have and also essential to rescue operations.

Our expertise

Raphael Laghi grew up in the Amazon from a family of many pilots. From 2010 on, they started the Paramotor expeditions in the Amazon, going over:

400km ~250mi up the Black River

260km ~159mi up the Tapajós River

60km ~37mi up the Arapiuns River

200km ~124mi up the Xingu River

+ stretches of the Amazonas, Branco and Purus Rivers

Check out the Cross Country Magazine article featuring this unique adventure [here](#)

The journey

Our journey begins in Novo Airão, Amazonas, as we set out to explore the remarkable Anavilhanas Archipelago. From there, we'll continue upriver to the 'Mouth of the Jaú' before making our way back.

In the dry season, the river reveals expansive sandy beaches, providing ample space for safe and comfortable take-offs and landings throughout our flights.

- Staff 24/7
- Recreational equipment: SUP's and wakeboard, fishing

WEATHER IN SEPTEMBER

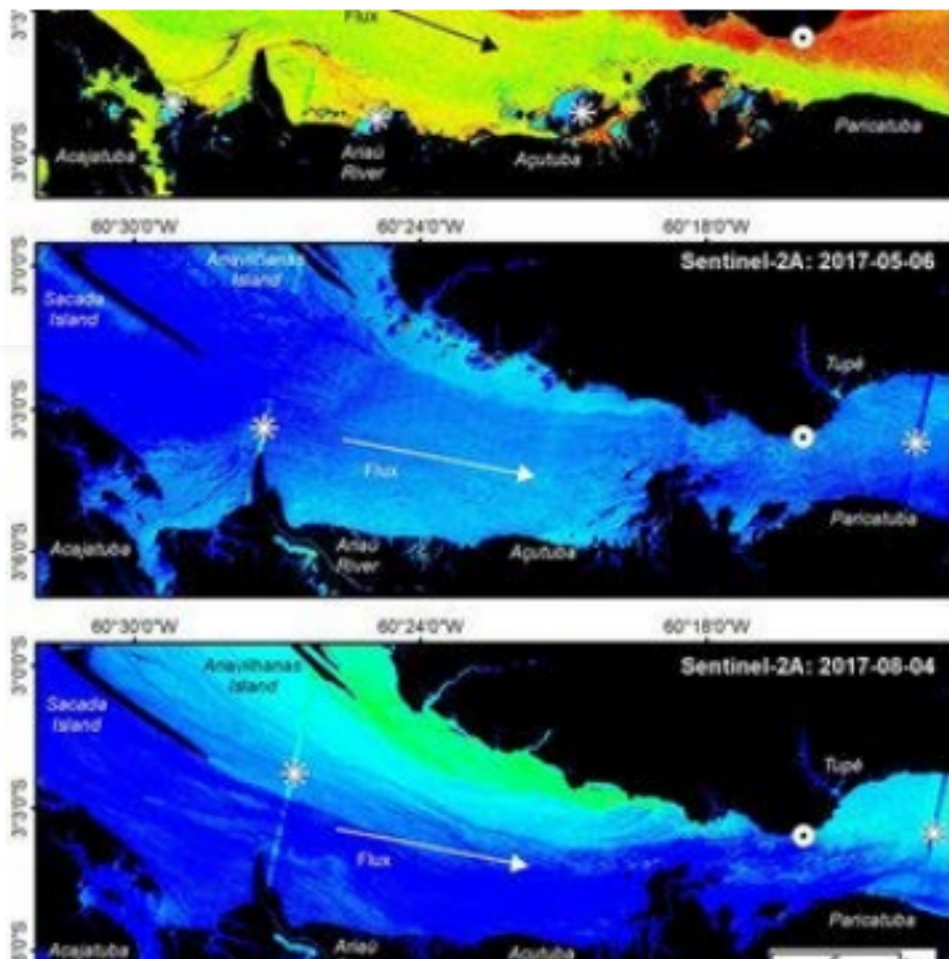

During September, visitors to the Anavilhanas can expect the dry season weather to prevail until the end of October. The region experiences warmer temperatures ranging from 26°C to 32°C (79°F to 90°F) with relatively low precipitation and high humidity. The clearer skies during this period are conducive to outdoor activities and aerial exploration.

AMAZON
Paramotor Expedition

Technical info about Anavilhanas:

The Anavilhanas Archipelago is significant for its seasonal dynamics, which influence the archipelago's river levels, weather, and wind patterns.

WIND PATTERNS

The wind over the Anavilhanas is generally calm and predictable during the dry season, particularly beneficial for paramotoring. Early mornings and late afternoons see the calmest conditions, with gentle breezes that facilitate smooth flights. Pilots should still be mindful of occasional gusts that can precede rainstorms, even though they are less common in September.
