FAST ACTING 1  
5 SECOND  
FORMULA

Formulated and Enhanced with

*Zetrisil*® 

A PROPRIETARY SILICONE QUATERNARY SOLUTION

WITH SOOTHING  
ALOE VERA

My-shield® Surface Cleaner is an alcohol-free nano silicone formulation that eliminates bacteria on any surface (including fabrics) and is now certified safe for use in commercial & passenger aircraft. Safe & easy to use, My-shield® Surface Cleaner kills most common germs on contact and offers extended protection up to 28 days per single application.

My-shield® Surface Sanitizer	Other Surface Products
Broad spectrum kill against most germs and viruses	Reduced efficacy against some germs and viruses
Non-flammable and non-toxic	Highly flammable and/or toxic
Anti-static, and can be applied directly onto electrical appliances	Disruptive to electrical equipment
Environmentally stable (non-leaching)	Environmentally hazardous
Extended Protection up to 28 days	Limited protection time up to 15 minutes

My-shield® Surface Cleaner is an alcohol-free nano silicone formulation that eliminates bacteria on any surface (including fabrics) and is now certified safe for use in commercial & passenger aircraft. Safe & easy to use, My-shield® Surface

Cleaner kills most common germs on contact and offers extended protection up to 28 days per single application.

My-Shield® Hospital Grade Cleaner is a unique, fast-acting surface treatment solution that kills bacteria and viruses on contact and continues to kill for up to 28 days – after just one application. Provides protection against: MRSA (Golden Staph): A strain of the Staphylococcus aureus. MRSA, a common

bacterium normally lives on the skin and in nasal passages of healthy people. The C. difficile bacterial infection is caused by the bacterium clostridium difficile (c. diff, c. difficile), which causes a range of symptoms, from diarrhea to life-threatening colon inflammation. It is particularly dangerous because it has developed a resistance to some antibiotics. It is especially troublesome in hospitals, where patients with open wounds, invasive devices and weakened immune systems are at greater risk of infection than the general public.

My-Shield Laundry Complete is a fast-acting cleaner and deodorizer that softens all machine washable fabrics during the washing process. Due to the proprietary nano-antimicrobial technology of Zetrisol, one application of My-Shield Laundry

Complete cleans and deodorizes clothing and fabric with continual protection against microbes for up to 28 days. Conventional detergents only provide protection during the laundering process and are subsequently ineffective at preventing germs, odors and re-contamination.

My-shield® Personal Hygiene Wipes are fast-acting, alcohol-free and lint-free. Formulated to kill germs, bacteria and viruses on contact, they aid in the healing of cuts, burns and abrasions. In addition to

eliminating germs that are present on the skin, our proprietary nano-protective barrier Zetrisol® offers long-lasting protection while the added Aloe Vera gently moisturizes your skin to prevent dryness.

Product	Size	Case Code
Surface Sanitizer	1 Gallon	MSSC-1G-C4
Laundry Complete	1 Gallon	MSLD-1G-C4
Hospital Grade Cleaner	1 Gallon	MSHD-1G-C4
Sanitizing Wipes	80 Count	MSHW80-C12
