Subject: Storm water bmp sharing agreement

John

Please confirm in this email that within the Erie Commons Filing 4 development we share a property line. And that on or within 20' of that property line we have installed a bmp silt fence for storm water control.

By way of this email, we agree to share this bmp in place and be solely responsible for repairing any damages in a timely manner that our contractors might cause during normal construction activities.

We agree to the same and also acknowledge that it was under our permit and by using our contractor for the original installation.

Please confirm here (reply all) so that we can share this agreement with our storm water teams.

Thank you

Peter

Make it a great day!
